

THE
EDITOR
SAYS—

To put one's thoughts in print during the extreme hot days and nights of the past ten days, might exclude the paper from the mail. We try to be sweet and clean in mind at all times, but to sweat and cuss leaves one with a bad taste in the mouth. How we wish for a good general rain.

We are in receipt of some propaganda about the new plan of Cape College which we place in the waste basket. Guess he is all right and time will tell all the good points about him which we are asked to print without knowing anything about him.

In asking one of our correspondents to give us crop conditions in her neighborhood, she writes: "An article regarding crop conditions now wouldn't be very profitable because of the lack of the necessary information." Which is a mighty good reason.

Of great importance to the nation is President Roosevelt's program on the relationship of government and business. Research indicates that cut-throat competition, with the resulting tremendous waste, is a strong influence in prolonging depression, inasmuch as it forces prices down and prevents them from rising. In the past, the anti-trust laws have stood in the way of agreements to offset this. The President's plan is to abrogate the trust laws, permit industries to work together in controlling production and prices, with the government as arbiter. Government would have a strong voice in determining wages, hours of labor, output, price, etc. Business has shown itself ready to co-operate.

Factors at play now justify the belief that a heavy upturn in building work will occur before long. During the past two months small residential building has been moving steadily upward, the material makers have noticed a better than seasonal gain in orders. Building upturn would be felt in every industry—lumber, steel, transport, metal, paint and varnish, electric, gas, etc.—and would provide a vast amount of new employment, with a consequent jump in buying power. Also important would be its favorable effect on security values.

Mr. Brown, near Senath, Dunklin County, called on Earl Jones, the Kennett banker, to borrow \$100 to finish up his crop. After inquiring what he wanted the money for, how many mules and how much feed he had, how many children and how many old enough to work on the farm—you know the routine if you ever tried to borrow money from a banker. At this point Mr. Jones said he intended to let Mr. Brown have the money, but thought to have a little fun with Mr. Brown, who was unshaven and poorly dressed, so he asked Mr. Brown how often he shaved and was told every Sunday morning. Mr. Jones stated he shaved every morning. Then he asked Mr. Brown how often he took a bath and was told every Saturday night. Mr. Jones said he took a bath every night. At that Mr. Brown straightened up and said he was glad to hear it, as it was clear he would have to kiss the back of his neck to get the hundred dollars.

It may be remembered The Standard carried a paragraph to the effect that a petty officer had collected several payments on accounts placed in his hands, but had not settled with the principal. Prosecuting Attorney Montgomery informs us this is an embellishment with a penitentiary sentence upon conviction. The grand jury at its next meeting will be asked to investigate the case mentioned, and probably others of a like nature.

There are so many ways to kill the depression, offered by the House and Senate in Washington, that the average citizen doesn't know what it is all about. It is much like the Bible, the more you read, the less you understand. It is a case of faith in both cases. You must believe whether you understand or know anything about either case or not. The general public have confidence that President Roosevelt is trying hard to help prosperity around the corner, and there's a lot of people that literally believe everything printed in the Bible.

The Standard editor voted for National Prohibition at the start and has been against it ever since. It looks like every State in the Union will vote for repeal. We are for temperance, but not compulsory temperance, and will use the columns of The Standard for repeal in this State, and by practice and in paragraphs, do everything in our power to promote temperance with our young people. The first shot is this: No business concern wants an employee who drinks and no customer cares to deal with a clerk or proprietor who smells of liquor.

Fatty Arbuckle, former stage pancake artist, is dead and in hell if there be any in the hereafter. He is the brute who caused the death of Virginia Rappe, an actress, whom he forcibly assaulted. So mote it be.

The T. E. L. Class of First Baptist church will be entertained Tuesday night, July 4, by Mrs. P. H. Stevenson and Mrs. J. W. Marshall at the former's home on Gladys street. All members of the class invited to be present.

NUMBER 78

LIONS PERFECT PLANS TO VISIT BIG CONVENTION

11 MEMBERS, CHORUS AND DIRECTOR TO GO

Members of the Sikeston Lions Club Wednesday reported that eleven members of that organization, a special stunt chorus of beautiful girls and their director, Miss Mildred Bradley, would visit the State and International Lions Club Conventions in St. Louis, early in July.

The eleven Club members who have made necessary reservations at the American Hotel are E. F. Schorle, Joe Sarsar, C. L. Blanton, Jr., M. M. Beck, Ted Kirby, L. D. Gmeiner, Pete Medley, Ralph Anderson, J. E. Harper, John Powell and George W. Kirk.

Those in charge of the International Convention have issued notices informing Clubs that several thousand dollars in prizes was being offered for the best stunts presented at the gathering.

With that in mind members of the local Club voted to send the "Lions Night Club Chorus" to participate. Miss Mildred Bradley of Poplar Bluff, who trained the original chorus, is in town and is conducting practice sessions twice daily at the high school gym. "We practice a difficult number and then 'rest' on an easy one for an hour or so at a time," explained one member of the attractive group. "But if you think it's fun, you're just crazy," she confided. The entire chorus is "ticked pink" over prospects of visiting the convention, however, and the girls are working hard to perfect their 15-minute program allotted.

President Entertains

A new Lions Club president, installed last Wednesday night, presided for the first time at the luncheon meeting this week. The new chief of the organization, Charlie Blanton, has issued an invitation to the officers and directors of the Club to meet informally at his home, Friday evening at 6:30 o'clock. The following will be present: Lee Bowman, M. M. Beck, Dr. H. E. Reuber, Dr. W. A. Anthony, John G. Powell, Ralph Anderson, E. F. Schorle, Joe Sarsar, Ted Kirby, L. D. Gmeiner and O. E. Elder.

Committee chairmanships and appointments of various committee personnel as announced Wednesday include the following:

FINANCE—C. D. Matthews, III, Z. E. McAmus and Lee Bowman.

PUBLICITY—J. E. Harper, Ben Topper and Duree Medley.

CHARITY—E. F. Schorles, W. L. Hutters and Harry Sharp.

HEALTH AND WELFARE—C. L. Malone, C. C. White and Paul Galoway.

SPECIAL ASSIGNMENT—Jno. G. Powell, M. M. Beck, A. M. Jackson and Ted Kirby.

SONG LEADER—Geo. W. Kirk. ENTERTAINMENT—Harry C. Young, L. D. Gmeiner, Dr. H. E. Reuber.

CONTACT AND CIVIC—F. D. Lair, George Lough, Louis Graber and Dr. W. A. Anthony.

BOYS BAND TO HOLD REHEARSAL

The first regular rehearsal of the Sikeston Boys' Band will be held at 6:30 o'clock next Tuesday evening in the Armory under the direction of Carl C. Sergeant, who this week interviewed a number of prospects here. All boys of Sikeston and this immediate vicinity are invited to join this band, which starts "from scratch." Experience does not count in this case, stated Sergeant Tuesday, who will have extremely low instruction rates in effect.

Boys may apply for membership at the regular Tuesday band meetings, he stated.

Miss Ann Beck will attend a house party this week-end given by Misses Kathryn and Jane Beck of near Hillsboro, Mo. All guests were students at the Teachers College this past school term. Others attending besides Miss Beck, are: Miss Marian Sample, Chaffee; Miss Nell Prather, Advance; Miss Dorothy Chapel, St. Louis; Miss Marcia Weber, Bloomfield; Miss Evelyn Lee, Charleston and Miss Eva Jane Wright, Cape Girardeau. Miss Beck will return home Monday.

The Weather

Forecast Till 7 P. M. Thursday

For St. Louis and vicinity: Possibly scattered thundershowers this afternoon or tonight; Thursday generally fair. Not much change in temperature.

For Missouri: Generally fair tonight and Thursday. Continued warm, with warmer in northwest portion.

For Illinois: Local thundershowers this afternoon or tonight with slightly cooler along Lake Michigan. Thursday partly cloudy.

Weather Conditions

Rain fell at many points in the western half of Missouri, with heavy falls at St. Joseph, Maryville, Kidder, Chillicothe, Kansas City and Lexington, but very little occurred in the eastern half of the State. There was but little rain in other parts of the country: a few showers in the Atlantic States, Illinois, Wisconsin, Iowa, northern Minnesota, and the Dakotas. Conditions are slightly favorable for showers in the St. Louis district this afternoon or tonight, but a positive forecast is not justified. Temperatures continue high in all sections except parts of the Rocky Mountain district and Western Canada, with a very warm belt extending from eastern Missouri northeastward to Montreal. Not much change is indicated for the St. Louis district.

Applegate Breaks Leg Monday In 12-foot Fall

Ranney Applegate, former Sikestonian, is recuperating from a compound fracture of his left leg and a dislocated ankle sustained Monday afternoon while at work on a highway bridge project in Stoddard County.

Mr. Applegate stepped on a heavy loose plank which tipped, causing him to lose his balance. He fell 12 or 15 feet, according to fellow workmen, and landed with all of his weight on his left leg. Both bones snapped just above the ankle. Despite his injuries he had presence of mind to scramble out of the way of the bridge timber, which crashed to the ground a few seconds later.

His sister, Mrs. Handy Smith, who visited him Wednesday evening, stated that Mr. Applegate was recovering nicely, and that he would probably be confined only a week or ten days. After that, the doctor said, he might be able to walk with the aid of crutches.

Friends of Mary Kathryn Boyer will be glad to hear that she is getting along nicely after an appendicitis operation last week in a St. Louis Hospital. Mary will probably return to Sikeston sometime next week.

McFADDEN SLIPS OUT OF JACKSON JAIL MONDAY

SLIPPERY PRISONER WAS CAUGHT HERE THURS.

It seems as though Southeast Missouri and Federal officers will be forced to place Marvin Lee McFadden in steel harness, ball and chain, handcuffs and solitary confinement if and when he is again apprehended.

McFadden, assisted by four fellow prisoners in the Scott County jail last fall, pried away a huge bar across a door, and damaged the place of confinement to the extent of about \$75 while trying to escape. He was captured again last Thursday afternoon after a chase through cotton fields northeast of town, after Sikeston Country Club members, a United States Marshal and highway patrolman Melvin Dace had hurdled and raced after the slippery gentleman wanted under indictment for violation of the Dyer Act—theft of an automobile.

McFadden was held in the Jackson, Mo., jail. The sheriff, after his prisoner had flown, expressed the thought that he was being held in a cell. McFadden, however, had been released into the "bull pen" or runaround from which he gained entrance to the kitchen and finally the great out-of-doors.

Government agents, members of the State Patrol and Cape Girardeau and Scott County officers are on the lookout.

McFadden started his career as a racer when first arrested. A tip brought word to patrolmen here that McFadden might be located on a farm near Matthews. Trooper Hubert G. Brooks and John Tandy investigated. They passed their man on a load of corn riding into Matthews. He jumped from the vehicle, ran through a store building and finally surrendered in a vacant storeroom in that place.

GENERAL DROUGHT IN FOURTH WEEK; ALL CROPS SUFFER

SCATTERED RAINS BRING SOME RELIEF

This was the fourth week of little or no rain for most of the State, but this week there were some spots—mostly in the counties of Lafayette, Cooper, Cole, Laclede, Green, Wright, Butler—favored by good rains. Nineteen-tenths of the State was still suffering from drought at the close of the week. Temperatures continued high all week except some temporary cooling in spots. There was considerable cloudiness on two or three days, which gave relief from the burning sun.

Corn has held up fairly well in most sections up to this time, except in the southeast, where the ground was too dry and hard for good cultivation. Its condition averages fair to good, with some in very good shape; but from now on there will be general deterioration day by day unless good rains fall.

Wheat is mostly in shock, the work having proceeded rapidly under favorable conditions. The crop probably averages only fair, the hot dry weather just before its maturity having done great damage to many fields.

Oats have been damaged greatly in most sections. In some localities the crop is not considered worth cutting; in others it is very good, and the average is probably fair to good.

All hay crops, including alfalfa, made poor progress. The same may be said of potatoes, berries and fruits. Apples are falling. Tomatoes are being seriously affected by dry weather blight in some Ozark regions. Berries suffered greatly from the drought. Pastures are poor.

The total rainfall for Missouri this week was .60-inch as compared with a 42-year normal of 1.13 inches. It is interesting to note in this connection that the total State rainfall from April 1 to June 27 inclusive is 11.51 inches, while the 42-year normal for the same period is 12.87 inches.

Bolt Kills Young Farm Woman, 24

A freakish lightning bolt at 4:00 o'clock Wednesday afternoon instantly killed Mrs. Nellie Moulder, 24, mother of three small children, living just north of Buckeye, near Highway 60.

The community was visited by a heavy electrical storm which came in connection with a drenching rain. The woman was engaged in trying to round up small chickens about thirty yards from the house when the bolt struck.

An examination of the body revealed that the charge entered the chin, ranged downward and shattered the left shoulder, then crossed and came out of her right heel. The left arm was badly burned. The terrific bolt ripped off the right shoe heel and split the back part of her shoe into shreds. A hole about the size of a quarter, in the center of the victim's heel gave evidence that the charge left the body at that place.

The body was removed to the Dempster Undertaking Parlor and prepared for burial Wednesday night. The family, including the husband, Arba Moulder, and three small daughters, Lucille, Louise and Corrine, accompanied the body early Thursday morning to Linn Creek, Mo., birthplace of Mrs. Moulder, where funeral services will be held.

Neighbors state that the storm cloud looked unusually dark and foreboding. A brilliant bolt of lightning about 4 o'clock was followed by a sharp thunder clap and then a heavy rain.

The family came to Southeast Missouri about seven years ago.

FUNERAL SERVICES FOR J. R. CHILES HELD TUESDAY

Funeral services were conducted Tuesday, June 27, at the family residence for John Louis Chiles, who died at his home Monday, June 26. Rev. Orville Steiner, pastor of the Blodgett Baptist church officiated, with interment in Miner Switch cemetery, Dempster service.

Mr. Chiles was born in Falmouth, Ky., November 17, 1863, and died June 26, 1933 at the age of 70 years.

He leaves to mourn his death, his wife and one son.

The Arbutus Class, First Baptist church, will hold their regular meeting Monday night, July 3, with Mrs. Bill Keller, Mrs. Milburn Arbaugh, assistant hostess. This will be a lawn party and all members are invited.

Sikeston Area Cotton Committee Is Ready to Act

Members of the Scott County committee charged with the responsibility of interviewing cotton growers, tenants and sharecroppers Wednesday morning, stated that calls for contract blanks were exceedingly slow. "We hope that those in our area will not wait until the last minute," stated Sayers Tanner and G. Moore Greer, both of whom had not received a call that morning. "The time limit as now set calls for July 8. If everyone waits until the last two or three days, it will be impossible to get around to all."

Landowners at the Tuesday meeting seemed anxious to co-operate fully, and to sign the proffered contracts without a great deal of delay.

"Please co-operate with these men," pleaded R. L. Furry, Scott County Agent, that night. "They are working without pay, and their expenses are paid by themselves". The committee for this county includes the following men:

R. Q. Black, Oran area.
Moore Greer, Sikeston area.
Evin Burke, Vanduser area.
Roy Green, Blodgett area.
Ben Adams, Benton area.
Wm. English, Diehlstadt area.
Sayers Tanner, Tanner area.
H. M. Zaricor, Commerce area.

Carl Luper is a committeeman co-operating with Mr. Greer for the Sikeston area.

4 WISH TO HAUL MAIL

Four applicants filed sealed bids recently to haul mail to and from the Postoffice and Frisco depot, according to W. E. Hollingsworth, who expects to receive notification of the successful bidder in the near future.

DEXTER GOLF GREENS OILED IN PREPARATION FOR JULY 4 TOURNEY

Dexter, June 27.—Oil has been poured on the greens and little details attended to at the Stoddard County Golf Club in preparation for the Southeast Missouri Open Tournament which opens here Sunday, July 2, for three days.

Reports have come in from clubs as far north as Crystal City and the lead belt and over 100 entries are expected. The Stoddard County course is one of the most natural in the State. Players from other States praise it highly as well as saying it is a hard course to shoot.

Officials of the Club are trying hard to make this tournament a huge success.

NEW MADRID COTTON MEN HEAR OF PLAN

250 ATTEND MEETING TO CUT COUNTY ACREAGE

At a meeting of 250 cotton growers at the Court House in New Madrid Tuesday night, final arrangements for the presentation of the cotton reduction plan to New Madrid County farmers were announced. The following are the local committeemen who will have charge of the canvassing in the different districts:

Portageville—Jess Thompson and Robert Wrathe.
Conran—Sam Pikey.
Marston—N. F. Hagood and Harry King.
Risco—A. E. Allgier and Robt. McDonald.
Gideon—J. W. Daugherty and Donald French.
Parna—Floyd Gale, G. E. Spitzer and Geo. M. Meir.
Sikeston and Mathews—E. P. Coleman.

Kewanee—Fred Helage.
Canalou—H. G. Cathey and Judge X. Caveno.
Lilbourn—J. W. Collins and J. L. Hendrickson and Judge J. H. Holterman.
Morehouse—Wm. Crumpecker.
East Prairie—W. D. Cain.
New Madrid—Wm. Dawson, Jr.
Malden—To be selected.

How It Works

If necessary these committeemen will select other members to assist them. The procedure is to be as follows: These committeemen will visit the cotton grower, inspect the cotton field to be plowed up, and if the cotton grower and committeeman can agree on the estimate of yield, the grower will sign a contract in triplicate. One contract will be left with the grower, and the other two contracts will be sent to the County Extension Agent.

(Continued on Page 8)

32,000 ACRES OF COTTON REPRESENTED AT MEETING HERE TUESDAY EVENING

200 Growers Express Opinion That Reduction Plan Will Prove Genuine Benefit to This District

CONTRACTS BEING SIGNED

Approximately 32,000 acres of cotton under cultivation in this area were represented at the first of a series of county meetings, held at the High School Gymnasium here Tuesday evening, at which time Ide P. Trotter, cotton specialist and R. L. Furry, Scott County Agent outlined to 200 farmers, the acreage reduction plan proposed by Secretary of Agriculture Wallace, as a direct relief measure applicable at once to this district and the cotton-growing South generally.

Campaign In Brief

Seven Missouri Counties, Butler, Dunklin, Mississippi, New Madrid, Pemisot, Scott and Stoddard are included in this week's campaign for the retirement of ten million acres of cotton land from the current year's production under the Federal plan for farm relief in the cotton belt. Missouri's quota for retirement in these seven counties is 106,000 acres, according to an announcement issued from the State office of the Agricultural Extension Service acting for Secretary Wallace in the administration of Federal farm relief plans.

The quota of cotton acreage that Missouri will be asked to retire from production amounts to 30 per cent of the five-year average for the seven counties named, and is apportioned among these counties as follows: Butler 3302, Mississippi 7379, Dunklin 22,589, New Madrid 17,892, Pemisot 27,334, Scott 4050, and Stoddard 6145.

To growers who volunteer to reduce their acreage two plans will be offered: First, a cash payment based on the productivity of the land and ranging from \$6 an acre for land yielding on the average around 100 pounds of lint cotton an acre to \$12 for land yielding on the average 275 pounds or more an acre, plus an option on Government-held cotton in an amount equal to that which the producer agrees to retire from production. The options will be offered at 6 cents a pound, nearly 3 cents below the current market price.

The second plan provides for a cash benefit without the cotton option, the amount of the benefit or rental to be on an acre basis, to range from \$7 for land yielding from 100 to 124 pounds an acre to \$20 for land yielding 275 pounds or more an acre.

The Gleaners' Class of the local Methodist church was entertained Wednesday evening by Group 5, with a lawn party at the home of Mr. and Mrs. Harry C. Young on North Street. The lawn was decorated in Japanese lanterns. Misses Ann Beck and Virginia Mount gave three vocal duets, after which the guests enjoyed the band concert given at the Malone Park. This will be the last meeting of the Gleaners until Fall.

RECORD CLASS ENROLLS FOR SWIM SCHOOL

TOTAL WILL REACH 74 STATES ENSOR

The annual swimming and life saving school started last Friday night by the Scott County Chapter, American Red Cross has a total enrollment of 74 youngsters and adults with more in sight, stated Wilbur Ensor, instructor and examiner today.

The first night brought out a total of 42 boys and girls, making it difficult to properly classify the group. Actual instruction of the class which was divided into two groups, one meeting at 5 o'clock and another at 7 each Monday, Wednesday and Friday was started Monday afternoon. At that time additional prospective swimmers enrolled, to bring the total figure to an all-time high mark of 74, necessitating still another class.

Three persons who have passed Senior Life Saving tests, are assisting with the work. They include Mrs. Irene Harper, Charles Watson and Bob Nicholson.

The consensus of opinion was favorable to the plans. Art Swacker, representing a large insurance company, stated the position of his company by saying: "We have approximately 4000 acres under cultivation, and we are ready to sign up or contract to destroy 25 per cent now". Another prominent farmer-banker, Jos. L. Matthews characterized the plan as "the first direct relief ever offered the farmer. We are ready to co-operate heartily although neither the cash or cash-option plan offers a means of settlement in keeping with the productivity of Southeast Missouri lands". By that he referred to the fact that the offer places 275 pounds per acre as a maximum basis for settlement whereas much land in this district produces upwards to a bale of lint cotton per acre.

An Idea Only

Keep on tending your cotton as if nothing has happened, advised Furry. However, he added, some farmers are doing this. They are planting corn or soybeans—crops to be used as soil builders or for feed between rows of their cotton. If they receive specific instructions to destroy part of their cotton under the terms of the contract selected, they will plow their corn or beans for the first time and destroy the cotton. If on the other hand, the plan falls through, they destroy the late plantings while cultivating their cotton the last time. "I'm not advising this form of procedure," he told his audience, "but I'm just passing this idea along."

County committeemen are ready to function in this district, and the actual work of visiting farms, signing contracts, and reaching agreements with landlords, tenants and "share croppers" will begin tomorrow (Wednesday) stated the speaker. Other county meetings have been planned for the remainder of this week, but added Mr. Trotter, word of this plan has spread throughout the district. "We have found a grapevine system in operation, and it is most efficient. Some of the folks in outlying sections seem to know as much about the idea as do we," he said. He then read two telegrams received.

The Telegram

Washington, D. C., June 28, 1933

Ide P. Trotter,

Del Rey Hotel, Sikeston, Mo.

In answer to questions that have been raised, advise you that the farm credit administration states that it is in no manner urging or requesting that producers take cash settlement without options. As this is entirely a matter for the producers to determine. Moreover, arrangements have been made with the Farm Credit Administration, having jurisdiction and control over the seed and crop production loans made by the secretary of agriculture, so that it will not be necessary for farmers who have procured such loans, to obtain from the Farm Credit Administration or any of its agents the consent agreement required from lien holders in the offer to enter into cotton benefits or cotton option-benefit contracts; and arrangements have likewise been made with the farm credit administration so that it will not be necessary for farmers who have procured loans from Regional Agricultural Credit Corporations to obtain such consents from the institutions from which they have procured (Continued on Page 8)

1515 MILES OF ROADWAY TO BE BUILT IN STATE

S. H. D. PROJECTS WILL COST \$7,500,000

Jefferson City, June 28.—Road projects involving the building of 1515 miles of roadway in 103 counties are in course of actual construction, or will be started within the next two weeks, T. H. Cutler, Chief Engineer of the Missouri State Highway Department, announced today. This includes a few projects unfinished in 1932 and \$7,500,000 in road contracts awarded so far this year, but excludes the remainder of the \$22,773,000 program scheduled for completion in 1933 for which contracts will be awarded this summer. The amount quoted for the 1933 program does not take into consideration any additional funds which might be made available for road work in connection with the proposed Federal Public Works Program.

All Types of Roads

Present projects include construction of 824 miles of graded earth, 354 miles of gravel, 132 miles of 20' concrete pavement, 75 miles of 10' concrete "slab", 14 miles of oiled mat, 78 miles of crushed stone, 2.1 miles of asphalt and concrete combination, and 31 miles of gravel haul on the Federal, State, Primary, Secondary, Supplementary, and other classifications of highways in Missouri.

16 Miles in Scott

Contracts are widely scattered in the State. The projects however in this district include 10.2 miles of grade earth and 7.2 miles of gravel totaling 17.4 miles in Bolinger County, 7.6 miles of graded earth and 10.5 miles of gravel totaling 18.1 miles in Cape Girardeau County; 2.6 miles of graded earth and 2.7 miles of gravel totaling 5.3 miles in Dunklin County; 8.1 miles of gravel in New Madrid County; 13.2 miles of graded earth, 4 miles of gravel and .764 mile of 20-foot concrete totaling 18 miles in Pemisot County; 8.1 miles of gravel in Ripley County; 3.6 miles of graded earth and 12.4 miles of gravel totaling 16 miles in Scott County; 22.8 miles of earth grading and 2.4 miles of gravel totaling 25.2 miles in Stoddard County.

NEW A. & P. CLERK

Gerald Allen Inman, son of Mr. and Mrs. Ernest Inman, was born last Monday night, according to the proud father, who is known to hundreds of customers of the local A. & P. Store here. Mother and child are in excellent health.

Hiway Workmen to Rebuild 14 Mi. of Route 34

Jefferson City, June 28.—Maintenance forces of the Missouri State Highway Department will reconstruct and reconstruct 14 miles of State Route No. 34 from Piedmont to the junction with U. S. Highway No. 67, at an estimated cost of \$6945. T. H. Cutler, Chief Engineer, said today. A 3200 foot section of the roadway, 10.7 miles from Piedmont and a shorter section 9.5 miles from that community, will be relocated, improving alignment and super-elevating curves.

Highway Department forces will also build one mile of graded earth on Supplementary Route D, in Barry County, 2.5 miles on Supplementary Route B, in Dunklin County, 45 miles on Supplementary Route BB in that county, and 1.1 miles on Supplementary Route D, in Dunklin County, at an estimated total cost of \$3,305. The latter projects were listed for bids at the letting of May 12, but no offers were received, and the Missouri State Highway Commission instructed its maintenance forces to complete the work, Cutler said.

LOCAL JUNIORS WILL PLAY ORAN HERE SUNDAY

ARE MEMBERS OF SCOTT COUNTY LEAGUE

The Sikeston Juniors, who thus far have won two games in the Scott County baseball league will meet the fast Oran nine on the local diamond Sunday afternoon, stated Manager Harry Dudley, today.

The boys took Illinois to camp last Sunday afternoon, defeating the Ely-Walker team by a top heavy score of 10 to 3 with Briggs and Byrd performing on the mound and behind the plate, respectively. The garment makers used Reed and Crowe in an endeavor to stop the Juniors, and Lipe on the receiving end.

Bandy and C. Baine of Sikeston and Illinois, respectively, divided batting honors each getting three out of four trips.

START DRIVING NAILS

In an editorial concerning the renovizing campaigns that have found a welcome in a multitude of American communities, the Saturday Evening Post says: "When a city or a town makes a united effort to improve the local employment and business situation, it also builds up its own confidence. There is less uncertainty and apathy when everybody pitches in to stimulate work of such a useful kind. It is nothing but good local business. But its great benefit will come when it is adopted by practical all the cities and towns in the country. The slogan of the renovize movement is a simple one, but for that very reason it is capable of having a far-reaching effect. The slogan is: 'If a man drives a nail he helps business'."

There is another good slogan, too, and that one is: "Employment and investment are cheaper than charity". One of the main purposes of renovizing campaigns is to provide the unemployed with productive work—as distinct from work which is not necessary, and is given more or less as charity. During the past three years millions of structures—hotels, warehouses, business buildings and residences—have been allowed to run down. Their owners have taken the attitude that economy came first—that they would spend as little as possible until they could see what was coming. To permit them to go on longer without repairs is the most prodigal kind of luxury. True economy is to protect the investment they represent by making improvements and repairs now—when they can be had at rock-bottom prices. It's time to start driving nails.

It is reported that, owing to the improved economic conditions, three young fellows of Hog Ford, whose parents are guests of the poor farm, may not have to dispose of their cars.—Commercial Appeal.

Sky-Ride Climber Sees a World Fair in the Making

Looking eastward from the 24th floor of the western tower of the Skyride at the world's fair grounds in Chicago. Just below is the north colonade of the Hall of Science, with its circular bed for an ornamental fountain.

The population of the Philippines is almost 13,000,000.

The Indian population of Canada is around 100,000.

Charleston Wins Seventh Straight Baseball Victory

Charleston, June 25.—The Charleston Cardinals defeated the Mound's Roxy's here this afternoon in an exciting, ten-inning contest, 7-6. In the tenth, Morrow singled, May advanced him on a sacrifice hit, Mast walked and Hudson hit the first ball pitched to the left field wall, but was only credited with a single. In ordinary innings, the hit would probably be a home run.

This was Charleston's seventh straight victory and eight out of nine starts. May won his second pitching duel and is charged with one defeat. Ault has won six games and has lost none this season.

Ault started the game, but retired in the third inning after allowing 5 hits and 4 runs. May pitched the rest of the game, allowing 5 hits and 2 runs. Kennedy started the game for Mounds, allowing 12 hits and runs. Titus relieved him in the eighth and allowed 2 hits and 1 run, the winning one.

Totals:
Mounds—6 runs, 10 hits, 3 errors.
Charleston—7 runs, 14 hits, 0 errors.

Score by innings:
Mounds.....211 002 000 0-6
Charleston.....000 012 210 1-7

On the Upper Nile people still cross the river in the primitive way, on an ox skin, on which a bundle of brushwood is piled.

In a sense, the World War was a conflict between the British and German coal fields. The French and Belgian coal fields were out of action from the beginning, but in the end the American coal field intervened.

India and China have long been far more over-populated than Europe, but have been precluded by political obstacles from obtaining an outlet by way of emigration, except to a very limited extent.

TODAY'S BIG FAVORITE

Everywhere it's
"Change to Super Shell!"
—was 3¢ extra—now regular price!

Millions have heard about it—

Millions have used it—

Now they are telling their friends
"Change to Super Shell—It's Today's Big Favorite."

Originally made for Lincolns and Cadillacs, Super Shell sold for 3¢ a gallon extra—and was more than worth it. Now the 3¢ premium's off!—and every car can now afford it; every motorist can now enjoy premium performance without paying extra.

Instant starting, hair-trigger pick-up, surging power, and an anti-knock rating higher than any gasoline to which ethyl has not been added. Plus extra mileage.

That's why everyone is saying: "Change to Super Shell!" It is colored golden for your protection. Results will prove to you why Super Shell at no extra cost is "Today's Big Favorite!"

• If you prefer an ethylized fuel, it is obtainable under the name of Super-Shell Ethyl—a double-premium gasoline at a single-premium price.

As I See It

—By—
Art L. Wallhausen

Those who believe in omens of good and bad luck have another instance as yet unmentioned in the press. Ben O. Booth, first State Highway Trooper to die in line of duty, carried badge number 13.

Booth and Sheriff Wilson both fell in a fusillade of lead when two Missouri bank bandits were stopped for questioning at Columbia.

Number 13 fell.

And something happened to Princess Pat Sunday night. Morning found the door locked and no one at home.

Sprinklers for the kiddies are almost in sight. Members of the Lions Club will discuss the question of paying for the sprinklers; Otto Hahs has agreed to manufacture them "at practically cost price," and Water Commissioner Lon Swanner will furnish water.

What is equally important, Boy Scout Patrol will be available to supervise the devices when and if that time comes.

Do we hear a second, or was that a growl?

We read of half a dozen new projects for the establishment of National Forests in Missouri. Thus far the counties of Laclede, Wright, Texas, Phelps and Pulaski are mentioned.

It might be suggested that our own Tri-States tract be considered seriously. Native timber hundreds of years old, bootleggers undisturbed since the year One, wild turkeys, bobcats, coons and finny representatives might all be found in the huge wooded area of Mississippi and New Madrid Counties.

We have wondered also whether all of our Sikeston and district politicians have lost their nerve. The Game and Fish Department, much as we dislike saying so, is a political football no less.

About the time one outfit gets through piddlin' around with a few thousand fingerlings which are dumped into the Lake of the Ozarks the political complexion of the State changes, and a new crop of barbers, school teachers, street cleaners, and what nots take charge.

I doubt whether there is one single representative in the department who has made a scientific study of fish propagation, or who

takes more than a passing interest in the problems confronting the State, other than doing just enough to keep his job.

The State of Missouri does not revolve around the Lake of the Ozarks, which, incidentally is near enough to Jefferson City to attract anglers in that Central Missouri district.

The point is this, we have in this section of Missouri thousands of miles of clear streams, drainage ditches they are called; occasional lakes and other bodies of water that could and should be stocked, and other bodies that should be seeded to remove millions of gar and other rough fish.

But the nearest we Southeast Missourians come to the Fish and Game Department is receiving two or three appointments in the district as deputy wardens.

If the Department is going to be run on a "pie counter" basis send us some pie; if on a scientific basis then establish a hatchery down here and give Southeast Missouri (not the Ozark region) boys who annually contribute their share towards the fund in the form of game and fish licenses, a break.

A few of the boys at the intersection are confronted with a problem. Abie Potashnick, T. A. Wilson and Bill Sensenbaugh point out that every section of town with one exception is properly labeled and identified.

There is, they state, Bo' Cat Alley, Dog Trot, Silk Stocking Ward, Blood' Two, the "Y", Frisco, Tin Can Alley, and in each case the name identifies a particular section.

Just now there is no such name to mark the intersection which now includes the State Highway Department buildings, Shoe Factory, Black Cat, Potashnick terminal, Sensenbaugh's, Simpson's, Langley's, etc.

To the person offering the most suitable name, in the estimation of the three judges mentioned, they will give a merchandise prize.

Ref. Groves, Charlie Henson, Carl Freeman and Dallas Beauchamp please take note.

Sam Brady left for Washington, D. C., Wednesday morning, where he goes on business. He will probably be home by the Fourth of July.

Best With Beer

BEER is here, but with its arrival has arisen the problem of what are the very best foods to serve with it. Pretzels, of course. Everyone knows that. But not everyone knows that pretzels, crisp, nutty and delicious, can be obtained anywhere now in cans.

But pretzels are not the only canned foods, by a long shot, that go well with a "can of beer." (Does that almost obsolete expression awaken old memories?) In fact, almost all of the foods that go best with beer can be bought in cans, and thus kept always on hand.

For a Party
A housewife can always be ready for one of those old-fashioned family parties, at which people drink a little beer and

eat lots of food, if she'll keep on her reserve shelf some cans of frankfurters, sausage, sardines, sauerkraut, cheeses of all kinds and canned sandwich spreads. Also canned crackers that will keep everlastingly crisp, pretzels, saltines, cheese crackers and cheese sticks.

Or if the party is to be a regular sit-down-and-eat affair, there are cans of beef à la mode, corned beef, ham-sliced, whole, deviled, or in loaf form—cans of tongue, veal loaf, chicken-whole, boneless, deviled and in tins—potatoes, meat, pigs' feet and a lot more.

The great point now, according to the brewers, is not only to eat the right things with beer, but not to abuse the new privilege of drinking the beverage which makes these things taste so good.

One of the most urgent problems before the modern church is the cleavage between itself and life. Bulgaria's 3500 co-operative societies have a membership of 600,000.

Chicken Farm For Sale or Trade

Good new house and barn, good chicken range on highway and railroad. Four and a half miles from Sikeston. Or good good stock farm with two sets building, all new and in good condition. Write box 111 or see Standard office.

Budweiser and Draught Beer IS BACK!

In the year 1886, Budweiser Beer made its first bow to the American public.

Now, in 1933, it comes back to you in the same delightful form that was enjoyed by millions before prohibition. Budweiser's position in the beer industry before prohibition is emphasized by the fact that it outsold any other brand of bottled beer on earth. And it comes from the largest brewery in the world.

The World Moves On!

MINING — Takes Ten-ton Bites. This monster bites into the famous phosphate mines in Florida of the American Agricultural Chemical Company. Fertilizer made from the rock aids nature on farms throughout the U. S.

PERSONALITY — Son of President plays tennis in Bermuda. James Roosevelt enjoys the restful climate and atmosphere of islands only a short sea trip from New York.

BEAUTY — Many movie stars are now using salt toothpaste to keep their teeth shining brightly before the cameras. Petite Marian Shockley, featured in Educational "Torchy" Comedies is one starlet whose teeth gleam brightly.

INDUSTRY Freeze Rivets. Rivets used in making airplanes are cold treated with dry ice before being used, according to the Michigan Alkali Co., largest maker of dry ice in U. S. Dry ice has many uses besides that of preserving food.

FINANCE — Carl H. Berets, financier of New York, urges standard form of sales contract for sellers of securities. He is member of advisory group co-operating with New York State Insurance Dept. in solving problems of guaranteed mortgage bonds in state.

SCIENCE — 20,000 square yards of surface in one cubic inch of Nuclear activated carbon. Its remarkable properties are used to remove taste and odors from water supply of 400 U. S. cities. Photo shows appearance under microscope.

WHAT WOULD THEY TEACH IF THEY TAUGHT THE "LITTLE RED SCHOOLHOUSE?"

Sentimentalists still persist in recalling the "golden age" of their own education, the days when they tramped wearily to and from the "Little Red Schoolhouse". But the Jackson Bureau of the Southeast Missouriian causes some consternation by publishing some of the answers found on examination papers in the office of County Superintendent O. C. Kiehne.

Perhaps the three "R's" made no such demands upon the faculty of the L. R. S., and perhaps the answers then would have been on a par with some of the following which are religiously copied from the papers.

Among the questions in civil government at the last examination was "What is the spoils system?" and one of the answers was "The spoils system is one that was brought about so they could drain some of the land and bring it into cultivation. The waist land is very good if they get it so it will be in use for cultivation".

Some other samples, exactly as written, follow:

Competition is fine. It has often been said "that competition is the life of trade". There is business for everybody and no business institution fears competition, so long as competition is honest and based upon costs. The printing business in this county for the past few years has been placed on a basis of competition without regard to cost. Kids, and it seems all others who happen to be out of employment, dive into the printing business without knowing anything about costs or quality of work, and offer prices that would make it appear that those who have spent their lives in the business and are yet poor, were robbers. To pay labor, interest, insurance, paper and supply bills and live, a printing concern must get a price that is reasonable. There is no printing office in St. Francois County that has made all ends meet in the last three years, yet new ones come into the field each year to help the others lose money and lose money themselves. It's a free country. Everybody can do as they please and we do not fall out with them for it. However, it would seem only reasonable that business firms who themselves are losing money yearly, would lend no encouragement to those who enter other lines to lose money. It simply means that the community is being weakened by ruinous competition and in the final windup the bill must be paid by someone. No community is stronger than it's business institutions and people. The weaker they grow, the weaker the community will grow.—Lead Belt News.

Hog Caller Blew Tubes
Norfolk, Neb.—Fred Patzel, world's champion hog caller, was asked to yodel in a radio broadcast. Patzel, a leather-junged farmer of Madison, cut loose. His hog call was so loud that \$200 worth of radio tubes at the broadcast station were blown out.

OUR 35th YEAR IN SOUTHEAST MISSOURI

A Little History

With a Moral

A million Doughboys in France with Pershing.

German cannon hurling dynamite into Paris.

Parisians on the run—panicky.

A ceremony at the grave of Lafayette.

Pershing's speech of four words.

"Lafayette we are here."

Then, Chateau Thierry and the Argonne fields of blood.

American blood and American money did full share.

France was saved for the French.

Uncle Sam was lionized in France—THEN.

Fifteen-sixteen years pass

France prospers—accumulates much gold.

Uncle Sam wants interest on war debt.

Does France say, "We are here?"

Indeed she does not!

She reneges on interest, whines for cancellation.

Love for U. S. A. jelled refrigerated or something.

French orators cutting "didos" in London conference.

Trying to break up meet-in' 'cause F. D. R. takes no orders.

She may yet "city slick" us out of the money.

And again, she may not—time will tell.

At any rate, stripped of big names.

France is a plain "weller."

And U. S. A. should never again.

Furnish boys and money to save her.

Moral: short settlements make long friends."

Keeping Cool

A good many people tell us this is one of the best furniture stores in any city of Missouri, this size. Not having seen all the others, we leave that decision to the public. One claim we do make, however, without fear of successful challenge and that is that we have THE Coolest Store in S. E. Missouri. Concrete floor, high ceilings and three stories produces a temperature on the ground floor remindful of Canadian Resorts. Lookers are welcome these blistering days and whether they buy or not our cooling process is worth their time.

Now For a Record July

Our June sales were far ahead of the same month in 1931 and over twice the volume of 1932. This probably is of little concern to the public except to indicate plainly that a lot of people have gone without comfortable home furnishings as long as they could hold out and now the buying fever has set in. Our mails are loaded with price advances, hence those who have not yet purchased will do well to heed our advice and BUY NOW. We shall strain every nerve to make our July offerings attractive and when the month is ended hope to have broken another record.

Sikeston Is Going Majestic

We believe it to be a fact that more Majestic Refrigerators were sold in Sikeston during 1932 and so far this season than all other makes put together. There are forty or more Majestic owners whom we know personally, all of whom said they were WELL PLEASED with Majestic results. And not only were they pleased with Majestic operation, but also with the Majestic service we render after sales are made. Prices have been advanced slightly, taking effect today, but that has only fractional bearing on the real value of Majestic refrigeration. July MUST be a big month in this line. We will continue the SEVENTY-FIVE PIECE PRIZES—salesmen are enthused—so are owners. If you don't believe it, ask any of them.

A Store Within a Store

As announced last week, Mr. Sam Rajotte, who was with us for many years in Charleston, now has charge of our used department in Sikeston and every stick of it has been moved to the second floor, a roomy and comfortable location. Sam has slicked things up from stem to stern and has a real store all on that floor. And has he bargains? We'll say he has. Take plenty of time to pay.

Florence Is Queen

Good cooks praise the Florence Oil Range. The focused heat principle means something in oil consumption as well as heat. It's really wonderful how good eats are served from Florence ovens. Bread like mother used to make, cakes and pies you are proud to serve, quick for boiling, perfect frying, a gentle simmer—whatever you need—that's Florence all over. Our store is the official Florence store of this town. We service them after we sell them.

Living Room Attractions

Twelve new living room suites came in one shipment last week—all covered in an excellent grade of Mohair and covered ALL ROUND, backs and sides included. They are selling at the modest price of \$69.50 on weekly or monthly payments. In view of the fact that Mohair fabrics are several dollars a yard higher now than when these were purchased, they will not be priced that way after this lot is sold.

Small Rugs, Give Away Prices

What do you think of a pretty 36 inch rag rug for a QUARTER? And a 48-inch for 49c? Then, we step up to a 36-inch Axminster for a DOLLAR BILL and along side are 48-inch Axminsters at \$1.49. Topping off these bargains may be found two sizes in chenille bath rugs at \$1.25 and \$2.25. We certainly have small rugs at a price.

Four Lucrative Posts Open Under Civil Service

PAY SCALE RANGES FROM \$2000 to \$5400

The United States Civil Service Commission has announced open competitive examinations as follows:

Junior Park Naturalist, \$2000 a year, less a deduction not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1/2 per cent; National Park Service, Department of the Interior.

Senior Highway Construction Supervision, \$4600 to \$5400 a year, less a deduction not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1/2 per cent; Bureau of Public Roads, Department of Agriculture, Washington, D. C.

Cost and Production Superintendent (Shoe Factory), \$2000 a year, less a deduction not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1/2 per cent; Federal Penitentiary, Leavenworth, Kas.

All States except Iowa, Maryland, New Hampshire, Vermont, Virginia, and the District of Columbia have received less than their share of appointments in the apportioned departmental service at Washington.

Full information may be obtained from Dave Reese, Secretary of the United States Civil Service Board of Examiners, at the post-office in this city.

A Safe Glorious Fourth

Editors in all parts of the country are digging out information for use this week and next, admonishing their readers to observe a "safe and sane Fourth". We have not forgotten boyhood pleasures sufficiently not to recall the days and weeks preceding the Fourth during which we worked long hours at various odd jobs to earn a few pennies to be spent on firecrackers, Roman candles, pin wheels and sparklers. But the toll of carelessness to which our attention is called yearly suggests using care in handling these explosives.

Last year the Associated Press reported 119 motor vehicle deaths, 90 drownings, 10 fireworks fatalities and 26 deaths from other causes all results directly or indirectly from Fourth of July celebrations. Some of the fireworks accidents which happily are in the minority probably affected children and minors. But most of the 119 automobile fatalities are directly attributable to adults. It is more important to drive carefully, to have brakes in working condition, and the family motor car in A1 condition on holidays than ordinarily. More persons are on the highways and roads, and the probability of meeting that one bughouse driver is increased many fold.

A few suggestions are timely: If you go off on a motor trip make sure your car is in safe operating condition; drive safely;

keep to the right; drive at a reasonable speed; have 600 feet of clear distance ahead before you attempt to pass other cars. Watch out for pedestrians.

If you go swimming—swim in safe places. Things to examine are tides, currents, depths, sunken debris and impurities. Be sure to stay within your own limits. Wait at least two hours after eating, and then take along a friend for safety's sake.

If you must use fireworks—be on the alert every minute. Give yourself plenty of space. Keep them away from inflammable materials. Keep away from smaller children and animals. Cauterize all small cuts and bruises immediately—tetanus poisoning is swift and deadly. The best advice about fireworks is: Use something else.

The Bushman's legend of the moon is a pretty one. The moon is a man who incurred the wrath of the sun and is consequently pierced by the knife (rays) of the latter, until only a little piece of him is left. Then he cries for mercy for his children's sake, and is allowed to grow again until once more he offends his sunship; the whole process being repeated monthly.

Marriage guidance bureaus have already been established in California, New York, Ohio and Pennsylvania.

Errors as well as truths can be acted upon.

Ice Means Fresh Food

“THE LAW” GOES ON
WILD GOOSE CHASE

Scott and New Madrid County officers as well as Highway Patrolmen were afforded an opportunity Wednesday night to test the speed of their respective automobiles in a hair-raising wild goose chase starting at Benton and ending south of New Madrid.

Sheriff Joe Anderson and Deputy Ira Shufft attempted to halt a red Chevrolet automobile shortly before 10 o'clock. A blast from a siren seemed to be the signal for a spurt of speed sufficient to out-distance the best efforts of officers and patrolmen alike over a 40-mile course.

The Scott County officers were within easy shooting distance several times and might have riddled their quarry with a sub-machine gun, but did not do so. They did not know who occupied the motor car, they stated. “We hit 76 miles an hour right along, but could not gain”, Sheriff Joe is quoted as saying.

At Sikeston the chase was taken up by Capt. A. D. Sheppard, trooper John Tandy, Coin Combs, Public Service Commission representative, and John Anderson. Shufft dropped off to warn New Madrid County officials.

At New Madrid the car streaked through with unslackened speed and reared a volley of rifle and shotgun fire. It whizzed out of range in an instant.

The district peace preservers are still scratching their heads over the affair.

HAAS MACHINE WORKS

GOLF

By H. L. Oatman

ARTICLE ONE

This and other articles of a series is for the benefit of golfers who wish to better their score, and also for the people who think that golf is too technical, and too costly a game.

Golf is not only a game for the athlete and rich person. It is a game for everybody regardless of financial condition, age or stature. It is a game that enables you to be out of doors, to enjoy the fresh air, to relax and to feel the joys of contentment without costing a huge sum of money, and all of your spare time.

It is no more difficult to play golf than it is to walk, because every person has a natural golf swing. Your natural swing is like a raw diamond that needs the rough edges smoothed, and then polished.

The two most important things of golf, and the only two that basic factors of the game, are rhythm and timing. These two things enable golf to be either a game or work.

If not properly executed the game is work. It tires you both mentally and physically. But if both factors are properly executed, you will find that golf is an enjoyable pastime.

GOLFERS WILL BE IDLE SUNDAY

Sikeston Country Club members will be idle next Sunday, at least insofar as concerns activity in the Southeast Missouri Round Robin tournament. The locals last Sunday defeated Poplar Bluff in the home links by a margin of nine points, 32 to 23.

The annual Southeast Missouri Invitation Amateur Tourney will get underway at Dexter, however, next Sunday and will attract a few of the local topnotchers. The annual affair will be held this season beginning Sunday, July 2 and continuing the following day and the next. The final playoffs in each of four classes will be held on July 4.

This is the golfing event of the year for district golfers, and more than 100 are expected from 16 towns and clubs in the area.

The entrance fee this year is \$2 per man, and should be mailed to the secretary of the association, Morris Sisler, Dexter, not later than Saturday noon, July 1.

“Quite a few Sikeston golfers have the idea that a playoff with Poplar Bluff is assured”, commented T. A. Wilson, tourney chairman this morning. “They should keep in mind, however, that we still have to defeat Kennett on July 16 on their home course. That victory is by no means assured”. Wilson then recalled that Poplar Bluff golfers returned from the southern city with a scant three-point margin.

A letter received Thursday morning from Mrs. John Woods in the Baptist General Hospital at St. Louis, to her husband, stated that she was getting along fine and was permitted to walk about the ward. She will probably be able to return to Sikeston in another week.

Robt. Mow, Jr., is in St. Louis, having gone there Wednesday.

TRUCKS AND MELONS!

An editorial in the Cape Girardeau Southeast Missourian Thursday, June 29 quotes liberally the opinions of an Illinois highway patrolman to the effect that Illinois welcomes Missouri trucks and motorists, but that Missouri petty officers are making life perfectly miserable for Illinois truckers and tourists, truckers more particularly.

Illinois has a full reciprocity agreement with Missouri, under which that State permits all Missouri trucks to operate in Illinois, and Missouri does likewise. We let them do exactly what they let us do.

The trouble arises, and the patrolman in question who furnished the Missourian with its information is evidently confused on the point, that Missouri also has a Bus and Truck Law . . . directed particularly at busses and trucks operating FOR HIRE.

“Recently, the patrolman said, an Illinois truck carried a load of freight over the Cairo bridge into Missouri and having no Missouri license, was ‘picked up’ by a petty State officer, who said he represented an agent of the truck department of the Public Service Commission. The driver put up a diamond ring, \$35 in money, a tool box and other things as a bond. Later on he was fined \$35, the amount of his cash deposit, and was sent away without a Missouri permit or license”.

The trouble arises over the self-evident fact that no discrimination is made or attempted, between Missouri State automobile or truck licenses, and-or permits issued by the State Public Service Commission, under regulations passed by the Fifty-Sixth General Assembly in 1931.

It is our opinion that when the Illinois assembly is finally adjourned, the patrolman who issued the free information to the Southeast Missourian, will find himself enforcing similar statutes in our sister State across the river. Illinois legislators are seriously considering regulation of busses and trucks on highways modeled after the Missouri statutes, and placed under the jurisdiction of the Illinois State Public Service Commission or some similar body.

The watermelon situation is mentioned specifically in the Missourian's editorial. We quote: “The watermelon season will soon be here again, the patrolman said, and many Illinois truckmen will want to drive into Southeast Missouri for watermelons to be peddled in Illinois, but they are being warned to exercise care. They must either have a permit or a license and not many would want to buy a license to haul away two or three loads of melons”.

We understand that the Missourian is quoting an Illinois highway patrolman, but we are surprised that the editorial staff did not check the information before spreading this misinformation.

Truth of the matter is, that Illinois truckers who wish to buy Missouri watermelons need neither a Missouri truck license, nor a permit from the Missouri Public Service Commission.

In the first place, Missouri has a full reciprocity agreement with Illinois which takes care of the truck license (license tags). As to the “permit”, it is covered in the Missouri Bus and Truck Law by two exemptions: 1. That the Illinois trucker is hauling his own

stuff, and 2. that watermelons come under the exemption of farm produce. In short, an Illinois trucker may bring a truckload of his own goods into Missouri and drive thru unmolested. He can also come to Missouri and buy anything he chooses for himself and still be unmolested by “petty officers” or highway patrolmen.

AS A MATTER OF FACT, ANY TRUCK, MISSOURI OR FOREIGN OWNED, THAT OPERATES OVER MISSOURI HIGHWAYS FOR HIRE COMES UNDER THE RULING AND JURISDICTION OF THE MISSOURI STATE PUBLIC SERVICE COMMISSION AND MUST HAVE A PERMIT.

We trust this explanation is sufficient to encourage the Southeast Missourian to correct its impressions gained from the well-meaning, but misinformed Illinois highway patrolman, and that said patrolman will secure a copy of the Missouri Bus and Truck Law, and the Motor Vehicle Laws of the State of Missouri and in the future be guided accordingly before permitting interviews with newspaper men who know no more than he does.

Temperance societies started in America in 1818. Magic has been called “the shadow of religion”. “Had I known” is a poor man. The best seats in Italian movie

OILERS PULL OUT OF MUNY LEAGUE

The scheduled Tuesday afternoon Oiler-Aces Muny League baseball game was not played, mainly because the Oilers had withdrawn from the sandlot league. “Yes, we pulled out, and we'll stay out as long as you commissioners allow players on other teams outside the ten-mile limit”, stated Manager Pete McCoy in explanation. He had reference to one player who, in his estimation, lives one-half mile outside of the limit, but who, according to commissioners of the league, was a qualified player.

The squabble will be reviewed this week-end at a called meeting of commissioners and team managers, at which time the problem of who's who, and where from will be considered.

In the meantime, the schedule continues with one of the best games of the season on tap Thursday afternoon between the Internationals now piloted by Red Kirby, and The Duke, in person, head man for the Potashnick Truckers.

er and family, who have rented her home, will move about the 10th of July.

Special assortment of hats at \$1.00.—Elite Hat Shop.

Mrs. Madie Rankin, Miss Nellie Rankin and Talley Huey of Blodgett went to St. Louis last night, where they will visit with relatives until Sunday.

For your next hose, try Claussen.—Elite Hat Shop.

Mr. and Mrs. L. F. Hatfield and children, Margaret Ann and Larry, Jr., of St. Louis, who spent their vacation at Hot Springs, Ark., were expected home yesterday.

For your next hose, try Claussen.—Elite Hat Shop.

Mr. and Mrs. Will Matthews and children, Mary Edna, Marjorie and Frank, and Mrs. Elizabeth Wagner of Glenn Allen, spent last Sunday here with R. H. Wagner and family.

Mrs. Paul Slinkard entertained at bridge yesterday afternoon.

CARD OF THANKS

We desire to express our thanks for the many kindnesses shown us during our recent bereavement in the death of Mrs. Lorena Hamby. To our many friends, the W. M. U., the Baptist Sunday school classes and the Masonic Lodge for their thoughtfulness, the many flowers and their part in the interment, we thank you all.

The Hamby Family, Sisters and Brothers.

There are several English words which have been in the past so often used ironically that in the course of time original meaning has become reversed. The word "silly", for instance, once meant "blessed" or "happy".

In the year 1800 more than half of what is now the United States was virtually unexplored and unknown.

In their own language, following a very common law amongst primitive people, the Eskimos call themselves "inuit", "the people".

Think It's Hot?

What about your radiator's job this kind of weather?

A boil out and "Reverse Flush" on the car, with the patented "X" Flush and liquid will keep your motor at "normal."

TRUCK LEVELS FIRE PLUG AND WHITE WAY POST

DRIVER FOR MIDWEST ICE
CREAM CO. UNHARMED

A tough luck jinx seems to be dogging a wholesale delivery truck operated by the Midwest Ice Cream Company.

About two weeks ago, a driver turned the heavy vehicle topsy turvy on Highway 60, east of the city, wrecking the cab, engine and chassis and necessitating the purchase of new units. The truck body proper and the driver escaped damage and injury.

Tuesday morning, Bob Isaacs, regular driver, left with a load of hot weather goods for Morehouse, Dexter, Conran, New Madrid and other points. He returned to the plant about 10 o'clock and thirty minutes later was headed south on Kingshighway on his way home. A few yards north of South Street, better known as the "Baptist church corner", Isaacs found the steering gear locked.

The heavy truck lumbered over the curb, leveled a fire plug and then splintered and grounded a new whiteway standard.

Sensenbaugh's wrecker crew lifted and tugged the truck back to conventional traffic lanes, and by Wednesday noon returned the vehicle to the Midwest plant. The truck was only slightly damaged. Isaacs was unhurt. The City, however, wrote in red ink, a repair bill for one fire plug and connections, and a new white way post. The latter costs approximately \$45, stated Dan G. Pepper, plant superintendent.

Jack Johnson went to Cape Girardeau Wednesday evening to accompany home Mrs. Johnson and Helen. Tuesday, Miss Helen underwent an operation for the removal of a nasal obstruction. We are glad to report that she is getting along fine.

SIKESTON, MISSOURI

Washington Comment

Washington perhaps was one of the last cities of the land to be hit by the unemployment cyclone, and the storm seems at its fury there while beginning to abate in other quarters. With such high-sounding slashes as fifteen or twenty million dollars cut off here and there, as easily as a man would buy five gallons of gas instead of ten, it is obvious that business cannot be conducted on the old standards, so far as governmental employment is concerned. The heads are dropping right and left, some of them gray with years of service. Those who are fortunate enough to keep their jobs will be likely to have extended periods for such useful but unremunerative work as weeding the garden or painting the front porch. The immediate discomfort will be harder times for the workers. The more remote effect will be that the public will have to pay specialists' fees for many services that formerly could be had through Washington for the asking. It may be that the federal government has been a liberal employer in the past, but it is equally certain that it will be much less useful servant in the future.

There is a degree of satisfaction in being a small-timer these days, and most of us are in that class. The average man, when his day's work is done, if he has had such a thing, can wind the clock, put out the cat, put on his slippers and call it a day. He does not have to stabilize the currency before he goes to bed. A knock at the door or a ring on the phone does not mean that he must go back to the brick yard or the store and straighten out the Recovery Act for someone who failed to get in before closing time. We have hired help whose duty it is to see to such matters. What has come about is not a mere change of party or administration, or a surrender of power. It is a completely new concept, namely that the statesman is a skilled worker, less bound by detailed instructions than formerly, but held to a strict accountability for results.

After July one, a two-cent stamp will answer for local letters, instead of a three, which sounds as though one better on the postage increase team had fanned out.

The opening of the last link in the line of water communication between Chicago and New Orleans brings again to notice the fact that inland waterways have received an unusually large amount of attention during the past few years. Airplanes and buses, together with the privately owned auto, have taken from the railroad much of the prestige which it formerly had as means for moving passengers and freight quickly, and the idea has gone abroad that perhaps the question of transporting slowly-moving freight by some means other than the railway, is worth looking into. The stage coach and the pony express, once regarded as indispensable, have passed away. Nothing can resist the changes that go with the passing of time, and one does not have to be a prophet of high degree to suggest that even so firmly established an institution as the railroad may some day be out-moded.

A Pennsylvania judge has expressed the opinion that gangsters should be stood up before a wall and shot to death. His suggestion embodies more than a change in the method of punishment. What he has in mind is a short and straight path from the commission of the crime to the infliction of the penalty. The spy and other war-time offenders can be tried by drum head court martial one day and executed the next. Gangsters carry on war without a formal declaration of war. Why, indeed, should the swift and appalling methods of martial law not be applied to them?

President Roosevelt received a shake-up at the hand of the ocean on his vacation cruise. It was a relief from Washington, at that. The elements are not always kind, but they are at least impartial.

The members of a foreign delegation at the World Economic Conference fear that their government will be forced off the gold standard unless something is done. No doubt they are worried over the prospect of having to pay war debts with a depreciated currency.

The Treasury has collected all the gold, excepting about five hundred million dollars. Anyone is likely to have overlooked a little loose change like that. It is the plain duty of the citizen to make another search through his fishing pants and old vests.

Pharris Ridge Personal And Local Items

Mr. and Mrs. Joe Schachabaurer and family of Canolau visited with Mr. and Mrs. Owen Johnson and family, Sunday.

The Junior Pharris Ridge ball team defeated the Junior Lander's Ridge team on the former's field Sunday afternoon by a score of 2 to 0.

Eva Lee Latham of Canolau has been spending the week with Miss Edwyna Johnson.

Curt Sanders, Willie Bowman and Opal Coffe of Lilbourn, Marietta Paterson of Matthews and Raymond Johnson spent Sunday afternoon with Zella Kem.

Wheat harvesting is progressing nicely in this community.

Mr. and Mrs. John Crosno and daughters were Morehouse shoppers Saturday evening.

George T. Johnson was a Canolau visitor Saturday night.

Louis Kem and sons, Randolph and Edsel shopped in Morehouse Saturday afternoon.

A dance was given at the Chapman home Saturday evening.

Esther Cowgur spent the past week-end visiting friends at Puxico. She was accompanied home Sunday by her sister, Nora, and Dr. Meredith, of St. Louis.

Louise Kem has been suffering with an infected toe caused by a cut.

Mr. and Mrs. Owen Johnson and family shopped in Sikeston Saturday afternoon.

Eva Lee Latham of Canolau and Edwyna Johnson visited with Mrs. Grace Gaden of Sikeston Saturday afternoon.

Joe Kem was seriously burned on his left arm Saturday forenoon.

Mrs. W. M. Dalton is convalescing rapidly from an infected eye.

Rev. Strafford of Portageville conducted services at Crosno school house Sunday morning.

Willard and Bernice Sanders spent a short time Friday evening with George T. Johnson.

Mr. and Mrs. John Crosno were Sikeston shoppers Wednesday afternoon.

Everyone is cordially invited to attend Sunday school at Lander's Ridge school house.

Hershel Newman spent a short time Thursday morning with his cousin, Bud Newman.

The shower of rain received Saturday and Sunday afternoon were greatly appreciated by the farmers of the community.

Aileen Adcock has been ill the past week, but she is improving rapidly.

Mr. and Mrs. W. W. Dalton, Rev. Strafford and son and daughter-in-law of Portageville spent Sunday with Mr. and Mrs. John Adcock and family.

Maudie Johnson, who lives near Sikeston and Ruthie and Jack Crowell spent Sunday with Gladys and John H. Johnson.

Those on the sick list at this time are Charles and Poe Tate.

Miss Ada Tate and Geo. Zolph were visitors of Mr. and Mrs. Ernest Tate, Sunday.

Mrs. Mary Chaney and sister, Mrs. Ella Shoaf of Sikeston stopped for a short visit.

Mr. and Mrs. Clarence Couch and family of Sikeston stopped for a short visit with Mr. and Mrs. Miller.

Mary Ovaline Tate, who has been on the sick list, is not improving so well at this writing.

Community Sunday school—10 o'clock. A new superintendent was elected, Dallas Wallace being the superintendent. Other officers were also elected.

FARMERS ARE URGED TO CUT PRODUCTION

ATTEMPT TO LIFE PRICES MAY FAIL—WALLACE

St. Paul, June 23.—Secretary of Agriculture Wallace warned farmers today that they must restrict production or the government's attempt to lift the price structure of agricultural commodities "will have been built on sand."

"If we want these prices to stay up and to go higher, we must put a firm base under them," Wallace said in his first speech to a farm audience since he became a cabinet member. He spoke at the experiment farm here.

Discussing the farm relief act, Wallace said it was a framework only and would not endure unless the "farmers of the country wish it" through concerted co-operation.

"It is a keynote of this administration that we refuse to kid ourselves about what we have done or hope to do," Wallace said.

He revealed that marketing agreements to help producers of fluid milk were being developed but that the broad problem of dairy surpluses has yet to be solved.

"The dairy and corn-hog situation involve extremely difficult problems," Wallace asserted, "and unfortunately, the corn belt organizations have not brought us a clear-cut plan for utilizing the centralizing forces of the bill in the same way as the wheat and cotton people."

Wallace predicted that total American exports of wheat and flour for the exporting season now closing would be only about 35,000,000 bushels, compared with a carry over of 350,100,000 bushels.

"As practical men, we know there is no prospect of any effective foreign demand being restored at any time in the near future," Wallace said.

Discussing the wheat processing tax recently decided on, he said that in no case would the required crop reduction exceed 20 per cent of a farmer's average acreage for the past three years.

"The exact percentage to be required this fall and next spring," he added, "will depend upon the outcome of the international wheat conference in London."

Morning services—11 o'clock. Young People's Meeting—7:00. Fred Marchbanks, leader.

Evening worship—8:00 o'clock. Prayer meeting every Thursday night. Everyone invited.

MISSISSIPPI COUNTY TO RETIRE 7379 ACRES OF COTTON

Charleston, June 26.—Ide P. Trotter and W. C. Shottwell of Columbia, representing the Missouri Agricultural Extension Service and the U. S. Department of Agriculture, met with a group of prominent farmers of the County here Saturday afternoon at the Court House, and began the campaign for retirement of 7379 acres of cotton in Mississippi County, which is 30 per cent of the past five year average of cotton acreage.

The following men were appointed to arrange local meetings throughout the county: Bertrand—S. B. Hardwick and J. O. Bebout; East Prairie—Louis Gregory and Elgin Davis; Wolf Island—Lindsay Ring; Dorena—Allys Rogers; Wyatt—Charles Morton, Clarence Black and Ed Menefee; Bridges—S. M. Shelby; Upper Crosno—Lan McPheeters and Anniston—W. J. Melton.

Clab Hancock says things are on the up and up, at among other items which lately have made new highs for the year are, the Old Miser's temper, butter, Gander Creek and Miss Fuzie Allsop's pencilled eyebrows.—Commercial Appeal.

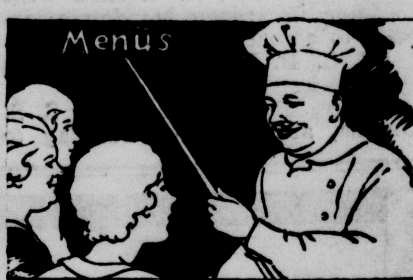

Sikeston Standard, \$2.00 per year

Kitchen-Cup-lets

by Della Taylor

If you want your big party to be a success I know of no better way I confess. Than to follow the lead of the hotel cooks. Besides consulting your cooking books.

If you have never had any experience planning a meal for a large crowd, it will sound like a gigantic undertaking to you. However, there are tricks in all trades and this one is no exception. Most people wonder how hotels always manage to have the proper amount on hand and to serve their guests so beautifully. This smoothness of routine is usually due to that King in his own realm, the Chef.

The other day I was at a luncheon at the newly reopened Blackstone Hotel, in Chicago. The Blackstone has always been one of Chicago's famous old landmarks and is known the world over for its cuisine.

I was so pleased when I learned that they had regained Herr Bertsche, their famous German chef, who looks Italian, and speaks French. I had known him when he was at the Blackstone before, and also when he was chef for another famous hotel in London. After luncheon, I sent my card back to him and asked if he was too busy to have me stop back and wish him luck.

During the course of our conversation, I asked him if he would plan a large luncheon for me. If you have to plan for a luncheon for your club, I feel quite sure that you will find Herr Bertsche's suggestions most helpful. The following menu is planned for one hundred and fifty people.

Melons and Strawberry Supreme Greenadine
Clear Vegetable Soup
Celery, Ridge and Green Olives
Chicken Hash au Gratin in Potato Nest
Vanilla Ice Cream
Demi-Tasse
Macaroons

Remove meat from beef shanks and crack bones. Put both in large kettle and cover with cold water. Bring to boiling point and then discard all liquid. Hold bones under cold water faucet for a minute. Put all back in kettle and cover with clean water. Make a little bag of cheesecloth and put bay leaves, whole peppers and cloves in it. Add this to meat and let simmer for 3 hours. Dice all vegetables and cook separately in small amount of broth from soup. Add vegetables to soup later. 1 gallon of soup makes about 15 cups. 8 to 10 gallons provides for one hundred and fifty people.

25 pounds beef shanks 2 tablespoons salt
4 bunches carrots 15 onions
10 stalks celery 3 heads cabbage
bay leaves, cloves and whole peppers. 1 oz. of each

Cover hens with cold water. Bring to a boiling point and then discard all liquid and wash hens again. Cover with clean water, add carrots, onions and celery trimmings. Simmer about two hours or until tender. Strain, cool and then remove meat and cut in small pieces. Make sauce with broth from hens, butter and enough flour to thicken. Put meat from chickens back in pot and pour over it this sauce, adding enough cream and seasoning to taste.

For the potato ring (feasted around either individual portions of chicken or around platter), use:
15 pounds potatoes salt
8 eggs pepper
Steam potatoes and rice them. Add the eggs, salt and pepper. Stir over hot stove until well mixed. Sprinkle with paprika and cheese.

Personal And Local Items From Blodgett

(By Miss Louise Peel)

Miss Mary Stebbins of Webster Groves is visiting at the Strayborn home.

Aunt James Peel returned home Friday from a visit in East St. Louis, Ill.

Miss Bernetta King is visiting relatives at Fisk and Poplar Bluff. Mrs. E. J. Niensted and daughter, Louise, shopped in Cape Girardeau, Friday.

Mr. and Mrs. Marshall Fulbright and Miss Freida Smith of Cape Girardeau visited at the M. C. Cope home over the week-end.

Mrs. J. F. Nunnelee was hostess to the W. C. T. U. Monday.

RENO DIV

32,000 Acres of Cotton

(Continued from Page 1)

such loans. This does not relieve farmers from listing on their offers the amounts they owe any such agencies. A determination will be made later as to the disposition of benefit payments with respect to these amounts. Where private persons or corporations have crop liens on cotton to be taken out of production, the settlement between the lien holder and the producer should be settled by agreement between them.

C. A. COBB, Cotton Expert in Charge. Mr. Cobb, in another message seemed assured that the plan would meet with favorable response.

The message:

"Prospects for successful acreage reduction campaign most promising. Wish to urge that all acreage retired be covered by contracts carefully inspected by a committee man to determine location, number of acres and estimated yield per acre before contracts are approved by county committee and reported to State and National offices. Nothing would be more fatal to the program than unfair yield estimates or unquestionable acreage figures in contracts.

In Other Counties Retirement of 7379 acres in Mississippi County was discussed at a meeting held in Charleston Saturday. Local committees for meetings throughout the county during this week were formed as follows: Bertrand, S. B. Hardwick and J. C. Bebout; East Prairie, Louis Gregory and Elgin Davis; Wolf Island, Lindsay Ringo; Dorena, Allys Rogers; Wyatt, Charles Morton, Lawrence Black and Ed Menefee; Bridges, S. M. Shelby; Upper Cross, Lan McPheeters and Anniston, W. J. Melton.

A meeting of the township committee for Dunklin County was held at Kennett Monday evening, June 26. Cotton farmers from all over the county attended. There will be a series of the meetings in various localities during this week to determine the number who will agree to reduce their crop.

New Madrid Cotton Men

(Continued from Page 1)

The County Agent will send these contracts to Washington and if accepted by the Secretary of Agriculture, the grower will be notified, and he can then destroy the cotton. The committeeman will again visit the cotton field, and certify that the cotton has been destroyed, send this certification to the Secretary of Agriculture, and the Secretary will then send payment for the cotton destroyed. At the meeting Tuesday night, the county was divided into fifteen different districts, and the committeemen named above have agreed to see that every cotton grower in fourteen of these districts will be interviewed. As stated above, committeemen for the 15th district will be selected at as early a date as is possible.

The two most troublesome questions brought up at the meeting was as to how the check in payment for the cotton was to be limited to 275 pounds per acre. In response to a wired request to Washington for additional information the following telegram was received Wednesday morning:

The Checks Cardon B. Nance, New Madrid, Mo.

When the interest of lien hold-

ers and producers must be protected the following language may be inserted in the contract just below the producers signature and just above the lien holders signature: "Check for cash benefits to be payable jointly to the producers and the undersigned lien holders". Total estimated yield should be in contract. Actual option in pounds of cotton to be based on total estimated production of acreage retired.

(Signed) C. A. COBB, In charge Cotton Section Production Division. Cotton producers who desire additional information on this plan should get in touch with the committeemen in their districts.

Assistant Named N. D. Wrinkle, who has been in County Agent work in Missouri since 1928, has been assigned to New Madrid County to assist County Agent Nance during the Cotton Reduction Campaign. Mr. Wrinkle graduated from the University in 1928, since which date he has been in Extension Work in Stoddard and Webster Counties. It is fortunate that New Madrid County has secured such experienced assistance in this work, stated County Agent Nance.

Personal and Local Items From Canalou

(By Velma McLaurin)

Mr. and Mrs. Herbert Lumsden and little daughter came Wednesday for a two days' visit with the former's mother, Mrs. J. W. Lumsden. Mr. Lumsden has been attending school in Urbana, Ill. He and his family left Friday for Colorado, where they expect to spend the summer with Mrs. Lumsden's parents.

Willie Allen of Lagrange, Ark., came Thursday for a short visit. His three grandchildren, W. D. Beulah May and Bethel Cullins accompanied him home, where they expect to stay during the summer. Mrs. LeRoy Smith, Mrs. Wes Smith and children were in Essex a short time Wednesday.

Sikeston, Missouri

To President Roosevelt

You made a promise to the people—and made good. You have a habit of making good—and we admire you for it. Falstaff, too, makes a promise to the people—guaranteeing them beer that is FULLY AGED. You backed your promise to the people with action. Our promise to you and to the people is likewise backed by action.

President Roosevelt—we salute you!

You have perhaps drank the other brands, now try the best—FALSTAFF, the Choicest Product of the Brewers Art.

It is a Missouri-made beer, sold by a Missourian. Celebrate the 4th with a case of Missouri's Best—FALSTAFF. Sold everywhere.

MISS CECIL DAUGHTERY

Phone 171 Charleston, Mo.

To put one's thoughts in print during the extreme hot days and nights of the past ten days, might exclude the paper from the mail. We try to be sweet and clean in mind at all times, but to sweat and cuss leaves one with a bad taste in the mouth. How we wish for a good general rain.

We are in receipt of some propaganda about the new dean of Cape College which we place in the waste basket. Guess he is all right and time will tell all the good points about him which we are asked to print without knowing anything about him.

In asking one of our correspondents to give us crop conditions in her neighborhood, she writes: "An article regarding crop conditions now wouldn't be very profitable because of the lack of the necessary information." Which is a mighty good reason.

Of great importance to the nation is President Roosevelt's program on the relationship of government and business. Research indicates that cut-throat competition, with the resulting tremendous waste, is a strong influence in prolonging depression, inasmuch as it forces prices down and prevents them from rising. In the past, the anti-trust laws have stood in the way of agreements to effect this. The President's plan is to abrogate the trust laws, permit industries to work together in controlling production and prices, with the government as arbiter. Government would have a strong voice in determining wages, hours of labor, output, price, etc. Business has shown itself ready to co-operate.

Factors at play now justify the belief that a heavy upturn in building work will occur before long. During the past two months small residential building has been moving steadily upward, the material makers have noticed a better than seasonal gain in orders. Building upturn would be felt in every industry—lumber, steel, transport, metal, paint and varnish, electric, gas, etc.—and would provide a vast amount of new employment, with a consequent jump in buying power. Also important would be its favorable effect on security values.

Mr. Brown, near Senath, Dunklin County, called on Earl Jones, the Kennett banker, to borrow \$100 to finish up his crop. After inquiring what he wanted the money for, how many mules and how much feed he had, how many children and how many old enough to work on the farm—you know the routine if you ever tried to borrow money from a banker. At this point Mr. Jones said he intended to let Mr. Brown have the money, but thought to have a little fun with Mr. Brown, who was unshaven and poorly dressed. He asked Mr. Brown how often he shaved and was told every Sunday morning. Mr. Jones stated he shaved every morning. Then he asked Mr. Brown how often he took a bath and was told every Saturday night. Mr. Jones said he took a bath every night. At that Mr. Brown straightened up and said he was glad to hear it, as it was clear he would have to kiss the back of his neck to get the hundred dollars.

It may be remembered The Standard carried a paragraph to the effect that a petty officer had collected several payments on accounts placed in his hands, but had not settled with the principal. Prosecuting Attorney Montgomery informs us this is embezzlement with a penitentiary sentence upon conviction. The grand jury at its next meeting will be asked to investigate the case mentioned, and probably others of a like nature.

There are so many ways to kill the depression, offered by the House and Senate in Washington, that the average citizen doesn't know what it is all about. It is much like the Bible, the more you read, the less you understand, and in a case of faith in both cases. You must believe whether you understand or know anything about either case or not. The general public have confidence that President Roosevelt is trying hard to help prosperity around the corner, and there's a lot of people that literally believe everything printed in the Bible.

The Standard editor voted for National Prohibition at the start and has been against it ever since. It looks like every State in the Union will vote for repeal. We are for temperance, but not compulsory temperance, and will use the columns of The Standard for repeal in this State, and by practice and in paragraphs, do everything in our power to promote temperance with our young people. The first shot is this: No business concern wants an employee who drinks and no customer cares to deal with a clerk or proprietor who smells of liquor.

Fatty Arbuckle, former stage pancake artist, is dead and in hell if there be any in the hereafter. He is the brute who caused the death of Virginia Rappe, an actress, whom he forcibly assaulted. So mote it be.

The T. E. L. Class of First Baptist church will be entertained Tuesday night, July 4, by Mrs. P. H. Stevenson and Mrs. J. W. Marshall at the former's home on Gladys street. All members of the class invited to be present.

SIKESTON, SCOTT COUNTY, MISSOURI FRIDAY MORNING, JUNE 30, 1933

NUMBER 78

LIONS PERFECT PLANS TO VISIT BIG CONVENTION

11 MEMBERS, CHORUS AND DIRECTOR TO GO

Members of the Sikeston Lions Club Wednesday reported that eleven members of that organization, a special stunt chorus of beautiful girls and their director, Miss Mildred Bradley, would visit the State and International Lions Club Conventions in St. Louis, early in July.

The eleven Club members who have made necessary reservations at the American Hotel are E. F. Schorle, Joe Sarsar, C. L. Blanton, Jr., M. M. Beck, Ted Kirby, L. D. Gmeiner, Pete Medley, Ralph Anderson, J. E. Harper, John Powell and George W. Kirk.

Those in charge of the International Convention have issued notices informing Clubs that several thousand dollars in prizes was being offered for the best stunts presented at the gathering.

With that in mind members of the local Club voted to send the "Lions Night Club Chorus" to participate. Miss Mildred Bradley of Poplar Bluff, who trained the original chorus, is in town and is conducting practice sessions twice daily at the high school gym. "We practice a difficult number and then rest on an easy one for an hour or so at a time," explained one member of the attractive group. "But if you think it's fun, you're just crazy," she confided. The entire chorus is "tickled pink" over prospects of visiting the convention, however, and the girls are working hard to perfect their 15-minute program allotted.

President Entertains

A new Lions Club president, installed last Wednesday night, presided for the first time at the luncheon meeting this week. The new chief of the organization, Charlie Blanton, has issued an invitation to the officers and directors of the Club to meet informally at his home, Friday evening, at 6:30 o'clock. The following will be present: Lee Bowman, M. M. Beck, Dr. H. E. Reuber, Dr. W. A. Anthony, John G. Powell, Ralph Anderson, E. F. Schorle, Joe Sarsar, Ted Kirby, L. D. Gmeiner and O. F. Elder.

Committee chairmanships and appointments of various committee personnel as announced Wednesday include the following:

FINANCE—C. D. Matthews, III, Z. E. McAmus and Lee Bowman.

PUBLICITY—J. E. Harper, Ben Topper and Duree Medley.

CHARITY—E. F. Schorles, W. L. Hutters and Harry Sharp.

HEALTH AND WELFARE—C. L. Malone, C. C. White and Paul Galoway.

SPECIAL ASSIGNMENT—Jno. G. Powell, M. M. Beck, A. M. Jackson and Ted Kirby.

SONG LEADER—Geo. W. Kirk. ENTERTAINMENT—Harry C. Young, L. D. Gmeiner, Dr. H. E. Reuber.

CONTACT AND CIVIC—F. D. Lair, George Lough, Louis Graber and Dr. W. A. Anthony.

BOYS BAND TO HOLD REHEARSAL

The first regular rehearsal of the Sikeston Boys' Band will be held at 6:30 o'clock next Tuesday evening in the Armory under the direction of Carl C. Sergeant, who this week interviewed a number of prospects here. All boys of Sikeston and this immediate vicinity are invited to join this band, which starts "from scratch." Experience does not count in this case, stated Sergeant Tuesday, who will have extremely low instruction rates in effect.

Boys may apply for membership at the regular Tuesday band meetings, he stated.

Miss Ann Beck will attend a house party this week-end given by Miss Kathryn and Jane Beck of near Hillsboro, Mo. All guests were students at the Teachers College this past school term. Others attending besides Miss Beck, are Miss Marian Sample, Chaffee, Miss Nell Prather, Advance; Miss Dorothy Chapel, St. Louis; Miss Marcia Weber, Bloomfield; Miss Evelyn Lee, Charleston and Miss Eva Jane Wright, Cape Girardeau. Miss Beck will return home Monday.

The Weather

Forecast Till 7 P. M. Thursday

For St. Louis and vicinity: Possibly scattered thundershowers this afternoon or tonight; Thursday generally fair. Not much change in temperature.

For Missouri: Generally fair tonight and Thursday. Continued warm, with warmer in northwest portion.

For Illinois: Local thundershowers this afternoon or tonight with slightly cooler along Lake Michigan. Thursday partly cloudy.

Weather Conditions

Rain fell at many points in the western half of Missouri, with heavy falls at St. Joseph, Maryville, Kidder, Chillicothe, Kansas City and Lexington, but very little occurred in the eastern half of the State. There was but little rain in other parts of the country; a few showers in the Atlantic States, Illinois, Wisconsin, Iowa, northern Minnesota, and the Dakotas. Conditions are slightly favorable for showers in the St. Louis district this afternoon or tonight, but a positive forecast is not justified. Temperatures continue high in all sections except parts of the Rocky Mountain district and Western Canada, with a very warm belt extending from eastern Missouri northeastward to Montreal. Not much change is indicated for the St. Louis district.

Applegate Breaks Leg Monday In 12-foot Fall

Ranney Applegate, former Sikestonian, is recuperating from a compound fracture of his left leg and a dislocated ankle sustained Monday afternoon while at work on a highway bridge project in Stoddard County.

Mr. Applegate stepped on a heavy loose plank which tipped, causing him to lose his balance. He fell 12 or 15 feet, according to fellow workmen, and landed with all of his weight on his left leg. Both bones snapped just above the ankle. Despite his injuries he had presence of mind to scramble out of the way of the bridge timber, which crashed to the ground a few seconds later.

His sister, Mrs. Handy Smith, who visited him Wednesday evening, stated that Mr. Applegate was recovering nicely, and that he would probably be confined only a week or ten days. After that, the doctor said, he might be able to walk with the aid of crutches.

Friends of Mary Kathryn Boyer will be glad to hear that she is getting along nicely after an appendicitis operation last week in a St. Louis Hospital. Mary will probably return to Sikeston sometime next week.

McFADDEN SLIPS OUT OF JACKSON JAIL MONDAY

SLIPPERY PRISONER WAS CAUGHT HERE THURS.

It seems as though Southeast Missouri and Federal officers will be forced to place Marvin Lee McFadden in steel harness, ball and chain, handcuffs and solitary confinement if and when he is again apprehended.

McFadden, assisted by four fellow prisoners in the Scott County jail last fall, picked away a huge bar across a door and damaged the place of confinement to the extent of about \$75 while trying to escape. He was captured again last Thursday afternoon after a chase through cotton fields northeast of town, after Sikeston Country Club members, a United States Marshal and highway patrolman Melvin Dace had hurdled and raced after the slippery gentleman wanted under indictment for violation of the Dyer Act—theft of an automobile.

McFadden was held in the Jackson, Mo., jail. The sheriff, after his prisoner had flown, expressed the thought that he was being held in a cell. McFadden, however, had been released into the "bull pen" or runaround from which he gained entrance to the kitchen and finally the great out-of-doors.

Government agents, members of the State Patrol and Cape Girardeau and Scott County officers are on the lookout.

McFadden started his career as a racer when first arrested. A tip brought word to patrolmen here that McFadden might be located on a farm near Matthews. Trooper Hubert G. Brooks and John Tandy investigated. They passed their man on a load of corn riding into Matthews. He jumped from the vehicle, ran through a store building and finally surrendered in a vacant storeroom in that place.

GENERAL DROUGHT IN FOURTH WEEK; ALL CROPS SUFFER

SCATTERED RAINS BRING SOME RELIEF

This was the fourth week of little or no rain for most of the State, but this week there were some spots—mostly in the counties of Lafayette, Cooper, Cole, Laclede, Green, Wright, Butler—favored by good rains. Nineteen-tenths of the State was still suffering from drought at the close of the week. Temperatures continued high all week except some temporary cooling in spots. There was considerable cloudiness on two or three days, which gave relief from the burning sun. Corn has held up fairly well in most sections up to this time, except in the southeast, where the ground was too dry and hard for good cultivation. Its condition averages fair to good, with some in very good shape; but from now on there will be general deterioration day by day unless good rains fall. Wheat is mostly in shock, the work having proceeded rapidly under the favorable conditions. The crop probably averages only fair, the hot dry weather just before its maturity having done great damage to many fields.

Oats have been damaged greatly in most sections. In some localities the crop is not considered worth cutting; in others it is very good, and the average is probably fair to good.

All hay crops, including alfalfa, made poor progress. The same may be said of potatoes, berries and fruits. Apples are falling. Tomatoes are being seriously affected by dry weather blight in some Ozark regions. Berries suffered greatly from the drought. Pastures are poor.

The total rainfall for Missouri this week was .60-inch as compared with a 42-year normal of 1.18 inches. It is interesting to note in this connection that the total State rainfall from April 1 to June 27 inclusive is 11.51 inches, while the 42-year normal for the same period is 12.87 inches.

Bolt Kills Young Farm Woman, 24

A freakish lightning bolt at 4:00 o'clock Wednesday afternoon instantly killed Mrs. Nellie Moulder, 24, mother of three small children, living just north of Buckeye, near Highway 60.

The community was visited by a heavy electrical storm which came in connection with a drenching rain. The woman was engaged in trying to round up small chickens about thirty yards from the house when the bolt struck.

An examination of the body revealed that the charge entered the chin, ranged downward and shattered the left shoulder, then crossed and came out of her right heel. The left arm was badly burned. The terrific bolt ripped off the right shoe heel and split the back part of her shoe into shreds. A hole about the size of a quarter, in the center of the victim's heel gave evidence that the charge left the body at that place.

The body was removed to the Dempster Undertaking Parlor and prepared for burial Wednesday night. The family, including the husband, Arba Moulder, and three small daughters, Lucille, Louise and Corrine, accompanied the body early Thursday morning to Linn Creek, Mo., birthplace of Mrs. Moulder, where funeral services will be held.

Neighbors state that the storm cloud looked unusually dark and foreboding. A brilliant bolt of lightning about 4 o'clock was followed by a sharp thunder clap and then a heavy rain.

The family came to Southeast Missouri about seven years ago.

FUNERAL SERVICES FOR J. R. CHILES HELD TUESDAY

Funeral services were conducted Tuesday, June 27, at the family residence for John Louis Chiles, who died at his home Monday, June 26. Rev. Orville Steiner, pastor of the Blodgett Baptist church officiated, with interment in Miner Switch cemetery, Dempster service.

Mr. Chiles was born in Falmouth, Ky., November 17, 1863, and died June 26, 1933 at the age of 70 years.

He leaves to mourn his death, his wife and one son.

The Arbutus Class, First Baptist church, will hold their regular meeting Monday night, July 3, with Mrs. Bill Keller, Mrs. Milburn Arbaugh, assistant hostess. This will be a lawn party and all members are invited.

Sikeston Area Cotton Committee Is Ready to Act

Members of the Scott County committee charged with the responsibility of interviewing cotton growers, tenants and sharecroppers Wednesday morning, stated that calls for contract blanks were exceedingly slow. "We hope that those in our area will not wait until the last minute," stated Sayers Tanner and G. Moore Greer, both of whom had not received a call that morning. "The time limit as now set calls for July 8. If everyone waits until the last two or three days, it will be impossible to get around to it all."

Landowners at the Tuesday meeting seemed anxious to co-operate fully, and to sign the proffered contracts without a great deal of delay.

"Please co-operate with these men," pleaded R. L. Furry, Scott County Agent, that night. "They are working without pay, and their expenses are paid by themselves". The committee for this county includes the following men:

R. Q. Black, Oran area.
Moore Greer, Sikeston area.
Roy Burke, Vanduser area.
Roy Green, Blodgett area.
Ben Adams, Benton area.
Wm. English, Diehlstadt area.
Sayers Tanner, Tanner area.
H. M. Zaricor, Commerce area.

Carl Luper is a committeeman co-operating with Mr. Greer for the Sikeston area.

4 WISH TO HAUL MAIL

Four applicants filed sealed bids recently to haul mail to and from the Postoffice and Frisco depot, according to W. E. Hollingsworth, who expects to receive notification of the successful bidder in the near future.

DEXTER GOLF GREENS OILED IN PREPARATION FOR JULY 4 TOURNAMENT

Dexter, June 27.—Oil has been poured on the greens and little details attended to at the Stoddard County Golf Club in preparation for the Southeast Missouri Open Tournament which opens here Sunday, July 2, for three days.

Reports have come in from clubs as far north as Crystal City and the lead belt and over 100 entries are expected. The Stoddard County course is one of the most natural in the State. Players from other States praise it highly as well as saying it is a hard course to shoot.

Officials of the Club are trying hard to make this tournament a huge success.

NEW MADRID COTTON MEN HEAR OF PLAN

250 ATTEND MEETING TO CUT COUNTY ACREAGE

At a meeting of 250 cotton growers at the Court House in New Madrid Tuesday night, final arrangements for the presentation of the cotton reduction plan to New Madrid County farmers were announced. The following are the local committeemen who will have charge of the canvassing in the different districts:

Portageville—Jess Thompson and Robert W. Corran.
Marion—Sam Pikey.
Marion—N. F. Hagood and Harry King.
Risco—A. E. Alliger and Robt. McDonald.
Gideon—J. W. Daugherty and Donald French.
Parma—Floyd Gale, G. E. Spitzer and Geo. M. Meir.
Sikeston and Matthews—E. P. Coleman.

Kewanee—Fred Hetlage.
Canalou—H. G. Cathey and Judge X. Caveno.
Lilbourn—J. W. Collins and J. L. Hendrickson and Judge J. H. Holtermann.
Morehouse—Wm. Crumpecker.
East Prairie—W. D. Cain.
New Madrid—Wm. Dawson, Jr.
Malden—To be selected.

How It Works

If necessary these committeemen will select other members to assist them. The procedure is to be as follows: These committeemen will visit the cotton grower, inspect the cotton field to be plowed up, and if the cotton grower and committeeman can agree on the estimate of yield, the grower will sign a contract in triplicate. One contract will be left with the grower, and the other two contracts will be sent to the County Extension Agent.

(Continued on Page 8)

32,000 ACRES OF COTTON REPRESENTED AT MEETING HERE TUESDAY EVENING

200 Growers Express Opinion That Reduction Plan Will Prove Genuine Benefit to This District

CONTRACTS BEING SIGNED

Approximately 32,000 acres of cotton under cultivation in this area were represented at the first of a series of county meetings, held at the High School Gymnasium here Tuesday evening, at which time Ide P. Trotter, cotton specialist and R. L. Furry, Scott County Agent outlined to 200 farmers, the acreage reduction plan proposed by Secretary of Agriculture Wallace, as a direct relief measure applicable at once to this district and the cotton-growing South generally.

Campaign In Brief

Seven Missouri Counties, Butler, Dunklin, Mississippi, New Madrid, Pemisot, Scott and Stoddard are included in this week's campaign for the retirement of ten million acres of cotton land from the current year's production under the Federal plan for farm relief in the cotton belt. Missouri's quota for retirement in these seven counties is 106,000 acres, according to an announcement issued from the State office of the Agricultural Extension Service acting for Secretary Wallace in the administration of Federal farm relief plans.

The quota of cotton acreage that Missouri will be asked to retire from production amounts to 30 per cent of the five-year average for the seven counties named, and is apportioned among these counties as follows: Butler 3302, Mississippi, 7379, Dunklin, 29,589, New Madrid 17,802, Pemisot 37,334, Scott 4050, and Stoddard 6145.

To growers who volunteer to reduce their acreage two plans will be offered: First, a cash payment based on the productivity of the land and ranging from \$6 an acre for land yielding on the average around 100 pounds of lint cotton an acre to \$12 for land yielding on the average 275 pounds or more an acre, plus an option on Government-held cotton in an amount equal to that which the producer agrees to retire from production. The options will be offered at 6 cents a pound, nearly 3 cents below the current market price.

The second plan provides for a cash benefit without the cotton option, the amount of the benefit or rental to be on an acre basis, to range from \$7 for land yielding from 100 to 124 pounds an acre to \$20 for land yielding 275 pounds or more an acre.

The Gleaners' Class of the local Methodist church was entertained Wednesday evening by Group 5, with a lawn party at the home of Mr. and Mrs. Harry C. Young on North Street. The lawn was decorated in Japanese lanterns. Misses Ann Beck and Virginia Mount gave three vocal duets, after which the guests enjoyed the band concert given at the Malone Park. This will be the last meeting of the Gleaners until Fall.

RECORD CLASS ENROLLS FOR SWIM SCHOOL

TOTAL WILL REACH 74 STATES ENSOR

The annual swimming and life saving school started last Friday night by the Scott County Chapter, American Red Cross has a total enrollment of 74 youngsters and adults with more in sight, stated Wilbur Ensor, instructor and examiner today.

The first night brought out a total of 42 boys and girls, making it difficult to properly classify the group. Actual instruction of the class which was divided into two groups, one meeting at 5 o'clock and another at 7 each Monday, Wednesday and Friday was started Monday afternoon. At that time additional prospective swimmers enrolled to bring the total figure to an all-time high mark of 74, necessitating still another class.

Three persons who have passed Senior Life Saving tests, are assisting with the work. They include Mrs. Irene Harper, Charles Watson and Bob Nicholson.

(Continued on Page 8)

The consensus of opinion was favorable to the plans. Art Swacker, representing a large insurance company, stated the position of his company by saying: "We have approximately 4000 acres under cultivation, and we are ready to sign up or contract to destroy 25 per cent now". Another prominent farmer-banker, Jos. L. Matthews characterized the plan as "the first direct relief ever offered the farmer. We are ready to co-operate heartily although neither the cash or cash-option plan offers a means of settlement in keeping with the productivity of Southeast Missouri lands". By that he referred to the fact that the offer places 275 pounds per acre as a maximum basis for settlement whereas much land in this district produces upwards to a bale of lint cotton per acre.

An Idea Only

Keep on tending your cotton as if nothing has happened, advised Furry. However, he added, some farmers are doing this: They are planting corn or soybeans—crops to be used as soil builders or for feed between rows of their cotton. If they receive specific instructions to destroy part of their cotton under the terms of the contract selected, they will plow their corn or beans for the first time and destroy the cotton. If on the other hand, the plan falls through, they destroy the late plantings while cultivating their cotton the last time. "I'm not advising this form of procedure," he told his audience, "but I'm just passing this idea along."

County committeemen are ready to function in this district, and the actual work of visiting farms, signing contracts, and reaching agreements with landlords, tenants and "share croppers" will begin tomorrow (Wednesday) stated the speaker. Other county meetings have been planned for the remainder of this week, but added Mr. Trotter, word of this plan has spread throughout the district. "We have found a grapevine system in operation, and it is most efficient. Some of the folks in outlying sections seem to know as much about the idea as we do," he said. He then read two telegrams received.

The Telegram

Washington, D. C., June 26, 1933

Ide P. Trotter, Del Rey Hotel, Sikeston, Mo.

In answer to questions that have been raised, advise you that the farm credit administration states that it is in no manner urging or requesting that producers take cash settlement without options. As this is entirely a matter for the producers to determine. Moreover, arrangements have been made with the Farm Credit Administration, having jurisdiction and control over the seed and crop production loans made by the secretary of agriculture, so that it will not be necessary for farmers who have procured such loans, to obtain from the Farm Credit Administration or any of its agents the consent agreement required from lien holders in the offer to enter into cotton benefits or cotton option-benefit contracts; and arrangements have likewise been made with the farm credit administration so that it will not be necessary for farmers who have procured loans from Regional Agricultural Credit Corporations to obtain such consents from the institutions from which they have procured.

(Continued on Page 8)

1515 MILES OF ROADWAY TO BE BUILT IN STATE

S. H. D. PROJECTS WILL COST \$7,500,000

Jefferson City, June 28.—Road projects involving the building of 1515 miles of roadway in 193 counties are in course of actual construction, or will be started within the next two weeks, T. H. Cutler, Chief Engineer of the Missouri State Highway Department, announced today. This includes a few projects unfinished in 1932 and \$7,500,000 in road contracts awarded so far this year, but excludes the remainder of the \$22,773,000 program scheduled for completion in 1933 for which contracts will be awarded this summer. The amount quoted for the 1933 program does not take into consideration any additional funds which might be made available for road work in connection with the proposed Federal Public Works program.

All Types of Roads

Present projects include construction of 824 miles of graded earth, 354 miles of gravel, 132 miles of 20' concrete pavement, 75 miles of 10' concrete "slab", 14 miles of oiled mat, 78 miles of crushed stone, 2.1 miles of asphalt and concrete combination and 31 miles of gravel haul on the Federal, State, Primary, Secondary, Supplementary, and other classifications of highways in Missouri.

16 Miles in Scott

Contracts are widely scattered in the State. The projects however in this district include 16.2 miles of graded earth and 7.2 miles of gravel totaling 17.4 miles in Bollinger County, 7.6 miles of graded earth and 10.5 miles of gravel totaling 18.1 miles in Cape Girardeau County, 2.6 miles of graded earth and 2.7 miles of gravel totaling 5.3 miles in Dunklin County, 8.1 miles of gravel in New Madrid County, 13.2 miles of graded earth, 4 miles of gravel and .754 mile of 20-foot concrete totaling 18 miles in Pemisot County; 8.1 miles of gravel in Ripley County; 3.6 miles of graded earth and 12.4 miles of gravel totaling 16 miles in Scott County; 22.8 miles of earth grading and 2.4 miles of gravel totaling 25.2 miles in Stoddard County.

NEW A. & P. CLERK

Gerald Allen Inman, son of Mr. and Mrs. Ernest Inman, was born last Monday night, according to the proud father, who is known to hundreds of customers of the local A. & P. Store here. Mother and child are in excellent health.

Hiway Workmen to Rebuild 14 Mi. of Route 34

Jefferson City, June 28.—Maintenance forces of the Missouri State Highway Department will recondition and reconstruct 14 miles of State Route No. 34 from Piedmont to the junction with U. S. Highway No. 67, at an estimated cost of \$6945. T. H. Cutler, Chief Engineer, said today. A 3200 foot section of the roadway, 10.7 miles from Piedmont and a shorter section 9.5 miles from that community, will be relocated, improving alignment and super-elevating curves.

Highway Department forces will also build one mile of graded earth on Supplementary Route D, in Barry County, 2.5 miles on Supplementary Route B, in Dunklin County, .45 miles on Supplementary Route BB in that county, and 1.1 miles on Supplementary Route D, in Dunklin County, at an estimated total cost of \$4,365. The latter projects were listed for bids at the letting of May 12, but no offers were received, and the Missouri State Highway Commission instructed its maintenance forces to complete the work, Cutler said.

LOCAL JUNIORS WILL PLAY ORAN HERE SUNDAY

ARE MEMBERS OF SCOTT COUNTY LEAGUE

The Sikeston Juniors, who thus far have won two games in the Scott County baseball league will meet the fast Oran nine on the local diamond Sunday afternoon, stated Manager Harry Dudley, today.

The boys took Illinois to camp last Sunday afternoon, defeating the Ely-Walker team by a top heavy score of 10 to 3 with Briggs and Byrd performing on the mound and behind the plate, respectively. The game makers used Reed and Crowe in an endeavor to stop the Juniors, and Lippe on the receiving end.

Bandy and C. Baine of Sikeston and Illinois, respectively, divided batting honors each getting three out of four trips.

START DRIVING NAILS

In an editorial concerning the renovizing campaigns that have found a welcome in a multitude of American communities, the Saturday Evening Post says: "When a city or a town makes a united effort to improve the local employment and business situation, it also builds up its own confidence. There is less uncertainty and apathy when everybody pitches in to stimulate work of such a useful kind. It is nothing but good local business. But its great benefit will come when it is adopted by practical all the cities and towns in the country. The slogan of the renovize movement is a simple one, but for that very reason it is capable of having a far-reaching effect. The slogan is: 'If a man drives a nail he helps business.'"

There is another good slogan, too, and that one is: "Employment and investment are cheaper than charity." One of the main purposes of renovizing campaigns is to provide the unemployed with productive work—as distinct from work which is not necessary, and is given more or less as charity. During the past three years millions of structures—hotels, warehouses, business buildings and residences—have been allowed to run down. Their owners have taken the attitude that economy came first—that they would spend as little as possible until they could see what was coming. To permit them to go on longer without repairs is the most prodigal kind of luxury. True economy is to protect the investment they represent by making improvements and repairs now—when they can be had at rock-bottom prices. It's time to start driving nails.

It is reported that, owing to the improved economic conditions, three young fellows of Hog Ford, whose parents are guests of the poor farm, may not have to dispose of their cars.—Commercial Appeal.

Sky-Ride Climber Sees a World Fair in the Making

Looking eastward from the 24th floor of the western tower of the Skyride at the world's fair grounds in Chicago. Just below is the north colonade of the Hall of Science, with its circular bed for an ornamental fountain.

The population of the Philippines is almost 13,000,000.

The Indian population of Canada is around 100,000.

Charleston Wins Seventh Straight Baseball Victory

Charleston, June 25.—The Charleston Cardinals defeated the Mound's Roxy's here this afternoon in an exciting, ten-inning contest, 7-6. In the tenth, Morrow singled, Mast walked and Hudson hit the first ball pitched to the left field wall, but was only credited with a single. In ordinary innings, the hit would probably been a home run.

This was Charleston's seventh straight victory and eight out of nine starts. May won his second pitching duel and is charged with one defeat. Ault has won six games and has lost none this season.

Ault started the game, but retired in the third inning after allowing 5 hits and 4 runs. May pitched the rest of the game, allowing 5 hits and 2 runs. Kennedy started the game for Mounds, allowing 12 hits and runs. Titus relieved him in the eighth and allowed 2 hits and 1 run, the winning one.

Totals:
Mounds—6 runs, 10 hits, 3 errors.
Charleston—7 runs, 14 hits, 0 errors.

Score by innings:
Mounds.....211 002 000 0-6
Charleston.....000 012 210 1-7

On the Upper Nile people still cross the river in the primitive way, on an ox skin, on which a bundle of brushwood is piled.

In a sense, the World War was a conflict between the British and German coal fields. The French and Belgian coal fields were out of action from the beginning, but in the end the American coal field intervened.

India and China have long been far more over-populated than Europe, but have been precluded by political obstacles from obtaining an outlet by way of emigration, except to a very limited extent.

"I've found the gasoline I've been looking for—Super SHELL—and it's not 3¢ extra any more!"
W. A. (Bill) COKER, New Orleans

Everywhere it's
"Change to Super Shell!"
—was 3¢ extra—now regular price!

Millions have heard about it—
Millions have used it—

Now they are telling their friends
"Change to Super Shell—It's Today's Big Favorite."

Originally made for Lincolns and Cadillacs, Super Shell sold for 3¢ a gallon extra—and was more than worth it. Now the 3¢ premium's off!—and every car can now afford it; every motorist can now enjoy premium performance without paying extra.

Instant starting, hair-trigger pick-up, surging power, and an anti-knock rating higher than any gasoline to which ethyl has not been added. Plus extra mileage.

That's why everyone is saying: "Change to Super Shell!" It is colored golden for your protection. Results will prove to you why Super Shell at no extra cost is "Today's Big Favorite!"

• If you prefer an ethylized fuel, it is obtainable under the name of Super-Shell Ethyl—a double-premium gasoline at a single-premium price.

As I See It

By
Art L. Wallhausen

Those who believe in omens of good and bad luck have another instance as yet unmentioned in the press. Ben O. Booth, first State Highway Trooper to die in line of duty, carried badge number 13.

Booth and Sheriff Wilson both fell in a fusillade of lead when two Mexico, Missouri bank bandits were stopped for questioning at Columbia.

Number 13 fell.
And something happened to Princess Pat Sunday night. Morning found the door locked and no one at home.

Sprinklers for the kiddies are almost in sight. Members of the Lions Club will discuss the question of paying for the sprinklers; Otto Hahs has agreed to manufacture them "at practically cost price", and Water Commissioner Lon Swanner will furnish water.

What is equally important, Boy Scout Patrol will be available to supervise the devices when and if that time comes.

Do we hear a second, or was that a growl?

We read of half a dozen new projects for the establishment of National Forests in Missouri. Thus far the counties of Laclede, Wright, Texas, Phelps and Pulaski are mentioned.

It might be suggested that our own Tri-States tract be considered seriously. Native timber hundreds of years old, bootleggers undisturbed since the year One, wild turks, bobcats, coons and finny representatives might all be found in the huge wooded area of Mississippi and New Madrid Counties.

We have wondered also whether all of our Sikeston and district politicians have lost their nerve. The Game and Fish Department, much as we dislike saying so, is a political football no less.

About the time one outfit gets through piddling around with a few thousand fingerlings which are dumped into the Lake of the Ozarks the political complexion of the State changes, and a new crop of barbers, school teachers, street cleaners, and what nots take charge.

I doubt whether there is one single representative in the department who has made a scientific study of fish propagation, or who

takes more than a passing interest in the problems confronting the State, other than doing just enough to keep his job.

The State of Missouri does not revolve around the Lake of the Ozarks, which, incidentally is near enough to Jefferson City to attract anglers in that Central Missouri district.

The point is this, we have in this section of Missouri thousands of miles of clear streams, drainage ditches they are called; occasional lakes and other bodies of water that could and should be stocked, and other bodies that should be seeded to remove millions of gar and other rough fish.

But the nearest we Southeast Missourians come to the Fish and Game Department is receiving two or three appointments in the district as deputy wardens.

If the Department is going to be run on a "pie counter" basis send us some pie; if on a scientific basis then establish a hatchery down here and give Southeast Missouri (not the Ozark region) boys who annually contribute their share towards the fund in the form of game and fish licenses, a break.

A few of the boys at the intersection are confronted with a problem. Abie Potashnick, T. A. Wilson and Bill Sensenbaugh point out that every section of town with one exception is properly labeled and identified.

There is, they state, Bo' Cat Alley, Dog Trot, Silk Stocking Ward, Bloods' Two, the "Y", Frisco, Tin Can Alley, and in each case the name identifies a particular section.

Just now there is no such name to mark the intersection which now includes the State Highway Department buildings, Shoe Factory, Black Cat, Potashnick terminal, Sensenbaugh's, Simpson's, Langley's, etc.

To the person offering the most suitable name, in the estimation of the three judges mentioned, they will give a merchandise prize.

Rol Groves, Charlie Henson, Carl Freeman and Dallas Beauchamp please take note.

Sam Brady left for Washington, D. C., Wednesday morning, where he goes on business. He will probably be home by the Fourth of July.

Best With Beer

BEER is here, but with its arrival has arisen the problem of what are the very best foods to serve with it. Pretzels, of course. Everyone knows that. But not everyone knows that pretzels, crisp, nutty and delicious, can be obtained anywhere now in cans.

But pretzels are not the only canned foods, by a long shot, that go well with a "can of beer." (Does that almost obsolete expression awaken old memories?) In fact, almost all of the foods that go best with beer can be bought in cans, and thus kept always on hand.

For a Party

A housewife can always be ready for one of those old-fashioned family parties, at which people drink a little beer and

eat lots of food, if she'll keep on her reserve shelf some cans of frankfurters, sauerkraut, sardines, ham, sliced, whole, deviled, or in loaf form—cans of tongue, veal loaf, chicken—whole, boneless, deviled and in tamales—potatoes, cheese crackers and cheese sticks.

Or if the party is to be a regular sit-down-and-eat affair, there are cans of beef à la mode, corned beef, ham—sliced, whole, deviled, or in loaf form—cans of tongue, veal loaf, chicken—whole, boneless, deviled and in tamales—potatoes, cheese crackers and cheese sticks.

The great point now, according to the brewers, is not only to eat the right things with beer, but not to abuse the new privilege of drinking the beverage which makes these things taste so good.

One of the most urgent problems before the modern church is the cleavage between itself and life.

Bulgaria's 3500 co-operative societies have a membership of 600,000.

Ten per cent of Finland's population are of the Swedish race.

Bombay, India, contains seven Jewish synagogues.

Budweiser and Draught Beer IS BACK!

In the year 1886, Budweiser Beer made its first bow to the American public.

Now, in 1933, it comes back to you in the same delightful form that was enjoyed by millions before prohibition. Budweiser's position in the beer industry before prohibition is emphasized by the fact that it outsold any other brand of bottled beer on earth. And it comes from the largest brewery in the world.

SCIENCE—20,000 square yards of surface in one cubic inch of Nuclear activated carbon. Its remarkable properties are used to remove taste and odors from water supply of 400 U. S. cities. Photo shows appearance under microscope.

WHAT WOULD THEY TEACH IF THEY TAUGHT THE "LITTLE RED SCHOOLHOUSE?"

Sentimentalists still persist in recalling the "golden age" of their own education, the days when they tramped wearily to and from the "Little Red Schoolhouse". But the Jackson Bureau of the Southeast Missouriian causes some consternation by publishing some of the answers found on examination papers in the office of County Superintendent O. C. Kiehn.

Perhaps the three "R's" made no such demands upon the faculty of the L. R. S., and perhaps the answers then would have been on a par with some of the following which are religiously copied from the papers.

Among the questions in civil government at the last examination was "What is the spoils system?" and one of the answers was "The spoils system is one that was brought about so they could drain some of the land and bring it into cultivation. The waist land is very good if they get it so it will be in use for cultivation".

Some other samples, exactly as written, follow:

Question: "What is a platform?" Answer: "What is meant by platform is what they call platform speaking. If there is someone in Congress or representative for some one and talks about different subjects it is called platform speaking."

Question: "What is speech of treason?" Answer: "A speech of treason is one that is making an appeal to the people on a subject that the speaker makes in order to get them to vote for him if he is running for some office."

Question: "What is a reprieve?" Answer: "A reprieve is one that if someone is in prison and is released and does another crime, he is reprieved or sentenced again or it may be on the account of ill behavior."

Question: "What is meant by 'keynote speech'?" Answer: "It is that when someone is making a speech with a broad subject and have notes which most of them usually have so they can keep on track of what they want to say and think, this is what they would call keynotes."

Competition is fine. It has often been said "that competition is the life of trade". There is business for everybody and no business institution fears competition, so long as competition is honest and based upon costs. The printing business in this county for the past few years has been placed on a basis of competition without regard to cost. Kids, and it seems all others who happen to be out of employment, dive into the printing business without knowing anything about costs or quality of work, and offer prices that would make it appear that those who have spent their lives in the business and are yet poor, were robbers. To pay labor, interest, insurance, paper and supply bills and live, a printing concern must get a price that is reasonable. There is no printing office in St. Francois County that has made all ends meet in the last three years, yet new ones come into the field each year to help the others lose money and lose money themselves. It's a free country. Everybody can do as they please and we do not fall out with them for it. However, it would seem only reasonable that business firms who themselves are losing money yearly, would lend no encouragement to those who enter other lines to lose money. It simply means that the community is being weakened by ruinous competition and in the final windup the bill must be paid by someone. No community is stronger than it's business institutions and people. The weaker they grow, the weaker the community will grow.—Lead Belt News.

Hog Caller Blew Tubes

Norfolk, Neb.—Fred Patzel, world's champion hog caller, was asked to yodel in a radio broadcast. Patzel, a leather-lunged farmer of Madison, cut loose. His hog call was so loud that \$200 worth of radio tubes at the broadcasting station were blown out.

A new caricature of Whispering Jack Smith, popular originator of the intimate type of airwave singing, by Alberto Garreto, noted Spanish caricaturist.

LAIR STORE NEWS

"THAT INTERESTING STORE"

HOME FURNISHINGS

OUR 35th YEAR IN SOUTHEAST MISSOURI

A Little History

With a Moral

A million Doughboys in France with Pershing,

German cannon hurling dynamite into Paris,

Parisians on the run—panicky,

A ceremony at the grave of Lafayette,

Pershing's speech of four words,

"Lafayette we are here,"

Then, Chateau Thierry and the Argonne fields of blood,

American blood and American money did full share,

France was saved for the French,

Uncle Sam was lionized in France—THEN,

Fifteen-sixteen years pass

France prospers—accumulates much gold,

Uncle Sam wants interest on war debt,

Does France say, "We are here?"

Indeed she does not!

She reneges on interest, whines for cancellation,

Love for U. S. A. jelled refrigerated or some-thin,

French orators cutting "didos" in London conference,

Trying to break up meet-in' 'cause F. D. R. takes no orders,

She may yet "city slick" us out of the money,

And again, she may not—time will tell,

At any rate, stripped of big names,

France is a plain "welcher,"

And U. S. A. should never again,

Furnish boys and money to save her,

Moral: short settlements make long friends."

Keeping Cool

A good many people tell us this is one of the best furniture stores in any city of Missouri, this size. Not having seen all the others, we leave that decision to the public. One claim we do make, however, without fear of successful challenge and that is that we have THE Coolest Store in S. E. Missouri. Concrete floor, high ceilings and three stories produces a temperature on the ground floor reminiscent of Canadian Resorts. Lookers are welcome these blistering days and whether they buy or not our cooling process is worth their time.

Now For a Record July

Our June sales were far ahead of the same month in 1931 and over twice the volume of 1932. This probably is of little concern to the public except to indicate plainly that a lot of people have gone without comfortable home furnishings as long as they could hold out and now the buying fever has set in. Our mails are loaded with price advances, hence those who have not yet purchased will do well to heed our advice and BUY NOW. We shall strain every nerve to make our July offerings attractive and when the month is ended hope to have broken another record.

Sikeston Is Going Majestic

We believe it to be a fact that more Majestic Refrigerators were sold in Sikeston during 1932 and so far this season than all other makes put together. There are forty or more Majestic owners whom we know personally, all of whom said they were WELL PLEASED with Majestic results. And not only were they pleased with Majestic operation, but also with the Majestic service we render after sales are made. Prices have been advanced slightly, taking effect today, but that has only fractional bearing on the real value of Majestic refrigeration. July MUST be a big month in this line. We will continue the SEVENTY-FIVE PIECE PRIZES—salesmen are enthused—so are owners. If you don't believe it, ask any of them.

A Store Within a Store

As announced last week, Mr. Sam Rajotte, who was with us for many years in Charleston, now has charge of our used department in Sikeston and every stick of it has been moved to the second floor, a roomy and comfortable location. Sam has slicked things up from stem to stern and has a real store all on that floor. And has he bargains? We'll say he has. Take plenty of time to pay.

Florence Is Queen

Good cooks praise the Florence Oil Range. The focused heat principle means something in oil consumption as well as heat. It's really wonderful how good eats are served from Florence ovens. Bread like mother used to make, cakes and pies you are proud to serve, quick for boiling, perfect frying, a gentle simmer—whatever you need—that's Florence all over. Our store is the official Florence store of this town. We service them after we sell them.

Living Room Attractions

Twelve new living room suites came in one shipment last week—all covered in an excellent grade of Mohair and covered ALL ROUND, backs and sides included. They are selling at the modest price of \$69.50 on weekly or monthly payments. In view of the fact that Mohair fabrics are several dollars a yard higher now than when these were purchased, they will not be priced that way after this lot is sold.

Small Rugs, Give Away Prices

What do you think of a pretty 36 inch rag rug for a QUARTER? And a 48-inch for 49c? Then, we step up to a 36-inch Axminster for a DOLLAR BILL and along side are 48-inch Axminsters at \$1.49. Topping off these bargains may be found two sizes in chenille bath rugs at \$1.25 and \$2.25. We certainly have small rugs at a price.

Four Lucrative Posts Open Under Civil Service

PAY SCALE RANGES FROM \$2000 to \$5400

The United States Civil Service Commission has announced open competitive examinations as follows:

Junior Park Naturalist, \$2000 a year, less a deduction not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1/2 per cent; National Park Service, Department of the Interior.

Senior Highway Construction Supervision, \$4600 to \$5400 a year, Senior Highway Design Engineer, \$4600 to \$5400 a year, less a deduction not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1/2 per cent; Bureau of Public Roads, Department of Agriculture, Washington, D. C.

Cost and Production Superintendent (Shoe Factory), \$2000 a year, less a deduction not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1/2 per cent; Federal Penitentiary, Leavenworth, Kas.

All States except Iowa, Maryland, New Hampshire, Vermont, Virginia, and the District of Columbia have received less than their share of appointments in the apportioned departmental service at Washington.

Full information may be obtained from Dave Reese, Secretary of the United States Civil Service Board of Examiners, at the post-office in this city.

A Safe Glorious Fourth

Editors in all parts of the country are digging out information for use this week and next, admonishing their readers to observe a "safe and sane Fourth". We have not forgotten boyhood pleasures sufficiently not to recall the days and weeks preceding the Fourth during which we worked long hours at various odd jobs to earn a few pennies to be spent on firecrackers, Roman candles, pin wheels and sparklers. But the toll of carelessness to which our attention is called yearly suggests using care in handling these explosives.

Last year the Associated Press reported 119 motor vehicle deaths, 90 drownings, 10 fireworks fatalities and 26 deaths from other causes all results directly or indirectly from Fourth of July celebrations. Some of the fireworks accidents which happily are in the minority probably affected children and minors. But most of the 119 automobile fatalities are directly attributable to adults. It is more important to drive carefully, to have brakes in working condition, and the family motor car in A1 condition on holidays than ordinarily. More persons are on the highways and roads, and the probability of meeting that one burghouse driver is increased many fold.

A few suggestions are timely: If you go off on a motor trip make sure your car is in safe operating condition; drive safely;

keep to the right; drive at a reasonable speed; have 500 feet of clear distance ahead before you attempt to pass other cars. Watch out for pedestrians.

If you go swimming—swim in safe places. Things to examine are tides, currents, depths, sunken debris and impurities. Be sure to stay within your own limits. Wait at least two hours after eating, and then take along a friend for safety's sake.

If you must use fireworks—be on the alert every minute. Give yourself plenty of space. Keep them away from inflammable materials. Keep away from smaller children and animals. Cautionize all small cuts and bruises immediately—tetanus poisoning is swift and deadly. The best advice about fireworks is: Use something else.

The Bushman's legend of the moon is a pretty one. The moon is a man who incurred the wrath of the sun and is consequently pierced by the knife (rays) of the latter, until only a little piece of him is left. Then he cries for mercy for his children's sake, and is allowed to grow again until once more he offends his sunship; the whole process being repeated monthly.

Marriage guidance bureaus have already been established in California, New York, Ohio and Pennsylvania. Errors as well as truths can be acted upon.

Ice Means Fresh Food

A full ice-box over the 4th means full protection against spoilage for your Meats, Fruits, Vegetables and Milk. Get your daily cake of big, honest weight ice from the old reliable ice dealer.

"THE LAW" GOES ON WILD GOOSE CHASE

Scott and New Madrid County officers as well as Highway Patrolmen were afforded an opportunity Wednesday night to test the speed of their respective automobiles in a hair-raising wild goose chase starting at Benton and ending south of New Madrid.

Sheriff Joe Anderson and Deputy Ira Shuffelt attempted to halt a red Chevrolet automobile shortly before 10 o'clock. A blast from a siren seemed to be the signal for a spurt of speed sufficient to out-distance the best efforts of officers and patrolmen alike over a 40-mile course.

The Scott County officers were within easy shooting distance several times and might have riddled their quarry with a sub-machine gun, but did not do so. They did not know who occupied the motor car, they stated. "We hit 76 miles an hour right along, but could not gain", Sheriff Joe is quoted as saying.

At Sikeston the chase was taken up by Capt. A. D. Sheppard, trooper John Tandy, Coin Combs, Public Service Commission representative, and Joe Anderson. Shuffelt dropped off to warn New Madrid County officials.

At New Madrid the car streaked through with unrelaxed speed and received a volley of rifle and shotgun fire. It whizzed out of range in an instant.

The district peace preservers are still scratching their heads over the affair.

MAHS MACHINE WORKS

GOLF By H. L. Oatman

ARTICLE ONE

This and other articles of a series is for the benefit of golfers who wish to better their score, and also for the people who think that golf is too technical, and too costly a game.

Golf is not only a game for the athlete and rich person. It is a game for everybody regardless of financial condition, age or stature. It is a game that enables you to be out of doors, to enjoy the fresh air, to relax and to feel the joys of contentment without costing a huge sum of money, and all of your spare time.

It is no more difficult to play golf than it is to walk, because every person has a natural golf swing. Your natural swing is like a raw diamond that needs the rough edges smoothed, and then polished. The two most important things of golf, and the only two that basic factors of the game, are rhythm and timing. These two things enable golf to be either a game or work.

If not properly executed the game is work. It tires you both mentally and physically. But if the two factors are properly executed, you will find that golf is an enjoyable pastime.

GOLFERS WILL BE IDLE SUNDAY

Sikeston Country Club members will be idle next Sunday, at least insofar as concerns activity in the Southeast Missouri Round Robin tournament. The locals last Sunday defeated Poplar Bluff on the home links by a margin of nine points, 32 to 23.

The annual Southeast Missouri Invitation Amateur Tourney will get underway at Dexter, however, next Sunday and will attract a few of the local topnotchers. The annual affair will be held this season beginning Sunday, July 2 and continuing the following day and the next. The final playoffs in each of four classes will be held on July 4.

This is the golfing event of the year for district golfers, and more than 100 are expected from 16 towns and clubs in the area.

The entrance fee this year is \$2 per man, and should be mailed to the secretary of the association, Morris Sisler, Dexter, not later than Saturday noon, July 1.

"Quite a few Sikeston golfers have the idea that a playoff with Poplar Bluff is assured", commented T. A. Wilson, tourney chairman this morning. "They should keep in mind, however, that we still have to defeat Kennett on July 16 on their home course. That victory is by no means assured". Wilson then recalled that Poplar Bluff golfers returned from the southern city with a scant three-point margin.

A letter received Thursday morning from Mrs. John Woods in the Baptist General Hospital at St. Louis, to her husband, stated that she was getting along fine and was permitted to walk about the ward. She will probably be able to return to Sikeston in another week. Robt. Mow, Jr., is in St. Louis, having gone there Wednesday.

TRUCKS AND MELONS!

An editorial in the Cape Girardeau Southeast Missourian Thursday, June 29 quotes liberally the opinions of an Illinois highway patrolman to the effect that Illinois welcomes Missouri trucks and motorists, but that Missouri petty officers are making life perfectly miserable for Illinois truckers and tourists, truckers more particularly.

Illinois has a full reciprocity agreement with Missouri, under which that State permits all Missouri trucks to operate in Illinois, and Missouri does likewise. We let them do exactly what they let us do.

The trouble arises, and the patrolman in question who furnished the Missourian with its information is evidently confused on the point that Missouri also has a Bus and Truck Law directed particularly at busses and trucks operating FOR HIRE.

"Recently, the patrolman said, an Illinois truck carried a load of freight over the Cairo bridge into Missouri and having no Missouri license, was 'picked up' by a petty State officer, who said he represented an agent of the truck department of the Public Service Commission. The driver put up a diamond ring, \$35 in money, a tool box and other things as a bond. Later on he was fined \$35, the amount of his cash deposit, and was sent away without a Missouri permit or license."

The trouble arises over the self-evident fact that no discrimination is made or attempted, between Missouri State automobile or truck licenses, and-or permits issued by the State Public Service Commission, under regulations passed by the Fifty-Sixth General Assembly in 1931.

It is our opinion that when the Illinois assembly is finally adjourned that the patrolman who issued the free information to the Southeast Missourian, will find himself enforcing similar statutes in our sister State across the river. Illinois legislators are seriously considering regulation of busses and trucks on highways modeled after the Missouri statutes, and placed under the jurisdiction of the Illinois State Public Service Commission or some similar body.

The watermelon situation is mentioned specifically in the Missourian's editorial. We quote: "The watermelon season will soon be here again, the patrolman said, and many Illinois truckmen will want to drive into Southeast Missouri for watermelons to be peddled in Illinois, but they are being warned to exercise care. They must either have a permit or a license and not many would want to buy a license to haul away two or three loads of melons."

We understand that the Missourian is quoting an Illinois highway patrolman, but we are surprised that the editorial staff did not check the information before spreading this misinformation.

Truth of the matter is, that Illinois truckers who wish to buy Missouri watermelons need neither a Missouri truck license, nor a permit from the Missouri Public Service Commission.

In the first place, Missouri has a full reciprocity agreement with Illinois which takes care of the truck license (license tags). As to the "permit", it is covered in the Missouri Bus and Truck Law by two exemptions: 1. That the Illinois trucker is hauling his own

stuff, and 2. that watermelons come under the exemption of farm produce. In short, an Illinois trucker may bring a truckload of his own goods into Missouri and drive thru unmolested. He can also come to Missouri and buy anything he chooses for himself and still be unmolested by "petty officers" or highway patrolmen.

AS A MATTER OF FACT, ANY TRUCK, MISSOURI OR FOREIGN OWNED THAT OPERATES OVER MISSOURI HIGHWAYS FOR HIRE COMES UNDER THE RULING AND JURISDICTION OF THE MISSOURI STATE PUBLIC SERVICE COMMISSION AND MUST HAVE A PERMIT.

We trust this explanation is sufficient to encourage the Southeast Missourian to correct its impressions gained from the well-meaning, but misinformed Illinois highway patrolman, and that said patrolman will secure a copy of the Missouri Bus and Truck Law, and the Motor Vehicle Laws of the State of Missouri and in the future be guided accordingly before permitting interviews with newspaper men who know no more than he does.

OILERS PULL OUT OF MUNY LEAGUE

The scheduled Tuesday afternoon Oiler-Aces Muny League baseball game was not played, mainly because the Oilers had withdrawn from the sandlot league.

"Yes, we pulled out, and we'll stay out as long as you commissioners allow players on other teams outside the ten-mile limit", stated Manager Pete McCoy in explanation. He had reference to one player who, in his estimation, lives one-half mile outside of the limit, but who, according to commissioners of the league, was a qualified player.

The squabble will be reviewed this week-end at a called meeting of commissioners and team managers, at which time the problem of who's who, and where from will be considered.

In the meantime, the schedule continues with one of the best games of the season on tap Thursday afternoon between the Internationals now piloted by Red Kirby, and The Duke, in person, head man for the Potashnick Truckers.

EMERGENCY HOSPITAL

Edgar Wilson of near Matthews underwent a successful operation Wednesday night for appendicitis. Mrs. Charles Bethune and son, Charles Robert, will probably be dismissed this week-end.

Mrs. W. M. Hehnecke, who recently underwent a successful major operation, is improving.

Mary Elizabeth Quertnerous is improving.

Henry LaMasters, New Madrid youth, who Sunday suffered a broken leg, is getting along nicely.

The H. C. Blanton family will leave Saturday morning for Bay City, Mich., where they will spend the summer months at the cottage.

of Mr. and Mrs. Harry Dailey, parents of Mrs. Blanton. They will drive through.

Mr. and Mrs. W. L. Hutters and son, Billy, who had been in St. Louis the past several days, returned Monday, accompanied by their newly adopted, 3-months-old daughter, who has been named Dorothy Louise. This is the second child adopted by Mr. and Mrs. Hutters, the other being a son now six years old.

All members of the local W. B. A. Review, who wish to attend the picnic today (Friday) at the Check and Double Check Park given by the Marston Review, are asked to be at the First Baptist church by 10 o'clock. From there cars will take them to the picnic.

SIKESTON BABE DIES AT HOSPITAL IN CAPE

Patsy Ellen Bizzell, 6 weeks old, daughter of Mr. and Mrs. J. W. Bizzell of Sikeston, died at 6:15 Wednesday a. m. at S. E. Missouri Hospital. She had been ill since birth and had been in the hospital since June 17. Funeral services were held in Sikeston Wednesday afternoon and burial will be in Memorial Park. The child is survived by her parents, two brothers and two sisters.

Miss Hazel Young entertained with a swimming party at the Natatorium last evening.

TRUCK LEVELS FIRE PLUG AND WHITE WAY POST

DRIVER FOR MIDWEST ICE CREAM CO. UNHARMED

A tough luck jinx seems to be dogging a wholesale delivery truck operated by the Midwest Ice Cream Company.

About two weeks ago, a driver turned the heavy vehicle topsy turvy on Highway 60, east of the city, wrecking the cab, engine and chassis and necessitating the purchase of new units. The truck body proper and the driver escaped damage and injury.

Tuesday morning, Bob Isaacs, regular driver, left with a load of hot weather goods for Morehouse, Dexter, Conran, New Madrid and other points. He returned to the plant about 10 o'clock and thirty minutes later was headed south on Kingshighway on his way home. A few yards north of South Street, better known as the "Baptist church corner", Isaacs found the steering gear locked.

The heavy truck lumbered over the curb, leveled a fire plug and then splintered and grinded a new whiteway standard. Sensenbaugh's wrecker crew lifted and tugged the truck back to conventional traffic lanes, and by Wednesday noon returned the vehicle to the Midwest plant. The truck was only slightly damaged. Isaacs was unhurt. The City, however, wrote in red ink, a repair bill for one fire plug and connections, and a new white way post. The latter costs approximately \$45, stated Dan G. Pepper, plant superintendent.

Jack Johnson went to Cape Girardeau Wednesday evening to accompany home Mrs. Johnson and Helen. Tuesday, Miss Helen underwent an operation for the removal of a nasal obstruction. We are glad to report that she is getting along fine.

BLONDIE of the FOLLIES

By FRANCES MARION

From Which Metro-Goldwyn-Mayer Has Made a Thrilling Motion Picture Starring Marion Davies.

CHAPTER XXX

Back stage a small group huddled around Blondie, a sorry little figure, crushed and unconscious. A girl in a nautch dance costume stuffed a dressing gown under her head. Another wearing nothing but tight fitting flesh colored trunks and a brassier covered her with a cloak.

Off to one side Lurline stood alone, breathlessly watching the efforts to help her friend. She was stunned—torn between her desire to rush to her pal and the feeling of guilt that assailed her. Her hand caught at her throat as she saw Blondie open her eyes.

"I'm all right," came feebly from Blondie's tight lips. She tried to rise, but fell back with a groan.

With a rush O'Brien burst upon the group. He quickly slowed down and said gently:

"Get her out of here—the palace is coming down—hurry along now."

"Her back is broken!" chorused the Locke twins.

"I don't wonder," said O'Brien sympathetically but still trying to restore order, "the way she went over the footlights." Then turning

"I'm all right!" came feebly from Blondie's tight lips. She tried to rise, but fell back with a groan.

on the group of girls. "That'll teach some of you dames a lesson—to keep out of that speak—you can't work on booze—it's an example to you!"

Suddenly catching sight of Lurline, O'Brien stalked over to her. "Now, perhaps, you're satisfied—get out of here—you needn't finish the show—you're through!"

Lurline turned slowly toward the dressing room, her head hanging, as the faint wail of the ambulance siren echoed from the street. When she came down, carrying her head in her hands, Blondie had gone. Lurline left the theatre without a word to anyone.

Through the swinging doors of Ward 17 of the Good Samaritan Hospital, a nurse entered quietly. She was followed by a visitor dressed in the height of fashion. They passed the other beds in the ward, all occupied, and made for one over in a corner of the huge room, near a window. In the narrow bed was a rigid figure encased in a plaster cast and steel braces. The back of the blonde head on the pillow was partly hidden by a semi-circle of leather-covered steel which disappeared from sight under the white bedspread.

Blondie was on her side, the only position she had been permitted to lie in for more than three months. As the footsteps of the visitors approached, her eyes brightened. She strained hard to catch every sound.

"Is it Lottie?" Blondie cried, sensing the identity of the visitor.

"Right again," said the nurse cheerfully, as she circled the bed to get within Blondie's view.

Lurline stood looking down at the stiff little figure under the covers, her face a study of confused humiliation. There was an awkward pause, when a chauffeur entered, carrying a large basket of orchids. "I brought you some flowers," said Lurline, with evident embarrassment, as the nurse set the basket on the table.

"Gee, aren't those beautiful.... thanks," said Blondie brightly. There was another long pause, even after the nurse and the chauffeur went out. Lurline stood staring thoughtfully. Blondie tried to speak casually. "Say, I can't look around—you'll have to come over here."

Lurline moved closer to the bed, but still remained out of Blondie's line of vision. She looked down nervously, trying to think of something to say to hide her emotion.

"Is that a brace?" she finally asked.

"No—Blondie smiled. "...it's a necklace—from Cartier's."

The answer only increased Lurline's embarrassment. She looked around the room almost frantically. Then she found her voice.

"It's a nice place....swell view from here."

Blondie looked longingly out the window. "East River....I can see this damn come up over it....it's great." Trying again unsuccessfully to see Lurline, she said, "Come here, Lottie."

With an effort Lurline pulled herself together, walked around the bed and sat down in the straight chair. Without meeting

MISSOURI GAME FISH news

Send all communications to MISSOURI GAME FISH DEPARTMENT JEFFERSON CITY, MISSOURI

Marshall's new 110-acre City Park will be formally dedicated with a Fourth of July Celebration and Homecoming.

Establishment of a National Forest to be located in five Missouri counties, Laclede, Wright, Texas, Phelps and Pulaski, was considered by federal authorities at a meeting held at Plato, in Texas County, on June 21. The forest, as planned, will contain 125,000 acres, each of the five counties having 25,000 acres.

The highway to Big Spring State Park, located four miles south of Van Buren, in Carter County, has been completed and turned over to the State. The new road is one of the most scenic drives in that section of the State and puts the 643 million gallon spring within a 10-minute drive of Van Buren and Federal Highway 60.

The largest number of visitors for many months were present at Osceola, Saturday and Sunday, states R. W. Ginsburg of the St. Clair County Democrat. "The boats at the dam were so thick Sunday it was difficult to use oars in getting around and boats were seen down the river as far as the eye could see. Fishing bait was at a premium. Last week Mr. and Mrs. Burton and Smith Weddington of Adrain, fishing two nights with trot lines, caught 175 pounds of cat fish, drum, and buffalo. The largest cat weighed 20 pounds.

Harry Denman, a Farmington newspaper publisher, reports a successful week-end fishing trip on the Castor river in Bollinger county. Using live minnows, he caught ten small mouth bass and fifteen goggle-eye. This is one story "where the biggest fish did not get away", Mr. Denman asserts.

After a rather dull beginning, State Parkkeepers report a marked increase in attendance over the week-end. J. C. Finney, in charge of concessions at Meramec State Park, east of Sullivan, says Sunday was the best day of the season. Fisher's cave, one of the largest and most interesting caves in the 7000-acre State-owned park, is a mecca these warm days as the temperature in the cave maintains a temperature of 57 degrees F. on the hottest days.

Catching a little more than 100 pounds of fish in a day and a half wasn't so bad! In fact, George Bales of Monett, Carl Sloan and Roy Lewis of Aurora, have been bragging considerably about it since their return from a trip to

Osceola, where they fished in the Osage river. They used mostly dough bait, as well as worms and minnows, catching catfish that weighed five and six pounds and drum and carp that weighed one and six pounds.

A Monett fisherman was angling for bass down on Current River last week when he happened to hit a branch containing locusts, the story goes. The insects fell into the river and immediately fish began to leaping and striking at them. Returning fishermen report fish are getting fat on locust diet.

"All Paths Lead to the Ozark Streams," says a news heading in the Monett Times. "Long floats, fishing, camping and picnic parties are the order of the day."

Fishing on Kings River at Osceola on the Osage and at the Lake of the Ozarks is reported good. The water on Lake Taney-como is reported clear with fish biting "extra good".

A Willow Springs fisherman, Irvin Masnor, claims the distinction of having caught two bass on one line last week, while fishing with a party of friends on the North Fork of White River in Howell County.

"Kill the Killer Cat"

Commenting on a recent bulletin regarding the "Killer Cat", J. C. Farrall, a traveling salesman for a St. Louis sporting goods house, says he is heartily in favor of the movement to perfect legislation to humbly destroy any cat found killing any bird or animal protected by law. "Last year I killed 105 cats and 55 hawks while in the field. Cats and hawks kill more quail than all the sportsmen in the State. I have known cats and hawks to systematically exterminate game quail coveys. A cat will kill a covey in one night and a hawk will not leave a field until its hunger is satisfied", Mr. Farrall asserts. Several States are considering legislation to license cats and use such fees derived from the practice for restoration of wild life. Many claim it is useless to declare a closed season on quail as long as cats are allowed to roam at will. Hundreds of cats may be observed along country roads any clear night hunting their prey.

Federal emergency relief work at Meramec State Park (four miles east of Sullivan, in Franklin County, will include the improvement of the swimming beach, zoning of picnic and camp grounds, building of fire lookout towers, and emergency fire trails through the 7000-acres of woodland, and the cutting back of approximately 25 miles of fire lines around the park. The swimming beach on the west bank will be sloped back, properly sanded and graveled on an 800-foot front. A fine park-connecting road is now being built by the State highway department, joining Highway No. 66, north of Sullivan. A camp composed of 200 men is now located in the park under the superintendency of C. A. Doland and his emergency conservation corps. Major Brownell, U. S. Army, is in charge of the camp facilities.

Over two thousand emergency works are now located in foresta-

INAUGURATE NEW SPEED SERVICE

BARNEY Oldfield, world famous automobile speed king, was a prominent passenger on the first regular passenger plane making the distance between New York and Chicago in 5 hours. Picture shows Oldfield at Newark Airport eating a World's Fair Sandwich, served to passengers of the airline, just before hopping off for the Windy City.

World's Fair Sandwich? It's made of a half cup of chopped bacon blended with two teaspoons of mayonnaise and served on toasted or untoasted bread. United Air Line stewards say it goes great with coffee, milk or beer.

other game preserves in the State should be particularly cautious during this season of the year regarding fires. A disastrous fire was averted last week when a fire started in Roaring River State Park in Barry County, 8 miles south of Cassville. Boys from the forestation corps encamped in the park organizing the damage to about fifteen acres of timberland. Much wild life is destroyed by such fires. Another forest fire south of Farmington on Highway 61, was observed last Friday night.

Game Wardens to Make Arrests
At the suggestion of Commissioner Wilbur C. Buford, Chief of Wardens, Joe E. Green, is notifying all game wardens that from this date on, to make arrests of all persons found hunting without proper licenses.

"NO BLOWOUTS
on My 4th of July Trip!
I'm Getting New Goodyears NOW!"

YOU don't need to be told that a thin, risky tire can take all the joy out of driving—but perhaps you have never figured that it costs you money to ride on old tires, with prices on the way up—if you pay more for new tires later on.

So buy now—enjoy your big July 4th week-end—and save yourself some money.

And while you're buying—get the SAFETY of blowout protection in every ply—get the SAFETY of grip in the center of the tread. Only Goodyear can give you the double safety of Supertwist Cord in every ply—and every ply from bead to bead—combined with the safety of the world-famous All-Weather Tread.

You can buy Goodyears—the world's first-choice tires—for not a cent more than tires which give far less value and protection.

Prices Have Started UP!
Don't wait to buy your tires!

You can see for yourself these prices are still low. Don't miss them by trying to squeeze a few more miles out of old worn-out rubber.

Washington Comment

Washington perhaps was one of the last cities of the land to be hit by the unemployment cyclone, and the storm seems at its fury there, while beginning to abate in other quarters. With such high-sounding slashes as fifteen or twenty million dollars cut off here and there, as easily as a man would buy five gallons of gas instead of ten, it is obvious that business cannot be conducted on the old standards, so far as governmental employment is concerned. The heads are dropping right and left, some of them gray with years of service. Those who are fortunate enough to keep their jobs will be likely to have extended periods for such useful but unremunerative work as weeding the garden or painting the front porch. The immediate discomfort will be harder times for the workers. The more remote effect will be that the public will have to pay specialists' fees for many services that formerly could be had through Washington for the asking. It may be that the federal government has been a liberal employer in the past, but it is equally certain that it will be much less useful servant in the future.

There is a degree of satisfaction in being a small-timber these days, and most of us are in that class. The average man, when his day's work is done, if he has had such a thing, can wind the clock, put out the cat, put on his slippers and call it a day. He does not have to stabilize the currency before he goes to bed. A knock at the door or a ring on the phone does not mean that he must go back to the brick yard or the store and straighten out the Recovery Act for someone who failed to get in before closing time. We have hired help whose duty it is to see to such matters. What has come about is not a mere change of party or administration, or a surrender of power. It is a completely new concept, namely that the statesman is a skilled worker, less bound by detailed instructions than formerly, but held to a strict accountability for results.

After July one, a two-cent stamp will answer for local letters, instead of a three, which sounds as though one better on the postage increase team had fanned out.

The opening of the last link in the line of water communication between Chicago and New Orleans brings again to notice the fact that inland waterways have received an unusually large amount of attention during the past few years. Airplanes and buses, together with the privately owned auto, have taken from the railroad much of the prestige which it formerly had as means for moving passengers and freight quickly, and the idea has gone abroad that perhaps the question of transporting slowly-moving freight by some means other than the railway, is worth looking into. The stage coach and the pony express, once regarded as indispensable, have passed away. Nothing can resist the changes that go with the passing of time, and one does not have to be a prophet of high degree to suggest that even so firmly established an institution as the railroad may some day be out-moded.

A Pennsylvania judge has expressed the opinion that gangsters should be stood up before a wall and shot to death. His suggestion embodies more than a change in the method of punishment. What he has in mind is a short and straight path from the commission of the crime to the infliction of the penalty. The spy and other wartime offenders can be tried by drum head court martial one day and executed the next. Gangsters carry on war without a formal declaration of war. Why, indeed, should the swift and appalling methods of martial law not be applied to them?

President Roosevelt received a shake-up at the hand of the ocean on his vacation cruise. It was a relief from Washington, at that. The elements are not always kind, but they are at least impartial.

The members of a foreign delegation at the World Economic Conference fear that their government will be forced off the gold standard unless something is done. No doubt they are worried over the prospect of having to pay war debts with a depreciated currency.

The Treasury has collected all the gold, excepting about five hundred million dollars. Anyone is likely to have overlooked a little loose change like that. It is the plain duty of the citizen to make another search through his fishing pants and old vests.

Pharris Ridge Personal And Local Items

Mr. and Mrs. Joe Schachabauer and family of Canolou visited with Mr. and Mrs. Owen Johnson and family, Sunday.

The Junior Pharris Ridge ball team defeated the Junior Lander's Ridge team on the former's field Sunday afternoon by a score of 2 to 0.

Eva Lee Latham of Canolou has been spending the week with Miss Edwyna Johnson.

Curt Sanders, Willie Bowman and Opal Coffe of Lilbourn, Marietta Paterson of Matthews and Raymond Johnson spent Sunday afternoon with Zelmia Kem.

Wheat harvesting is progressing nicely in this community.

Mr. and Mrs. John Crosno and daughters were Morehouse shoppers Saturday evening.

George T. Johnson was a Canolou visitor Saturday night.

Louis Kem and sons, Randolph and Edsel, shopped in Morehouse Saturday afternoon.

A dance was given at the Chapman home Saturday evening.

Esther Cowgur spent the past week-end visiting friends at Paxico. She was accompanied home Sunday by her sister, Nora, and Dr. Meredith, of St. Louis.

Louise Kem has been suffering with an infected toe caused by a cut.

Mr. and Mrs. Owen Johnson and family shopped in Sikeston Saturday afternoon.

Eva Lee Latham of Canolou and Edwyna Johnson visited with Mrs. Grace Darden of Sikeston Saturday afternoon.

Joe Kem was seriously burned on his left arm Saturday forenoon.

Mrs. W. M. Dalton is convalescing rapidly from an infected eye.

Rev. Stafford of Portageville conducted services at Crosno school house Sunday morning.

Willard and Bernice Sanders spent a short time Friday evening with George T. Johnson.

Mr. and Mrs. John Crosno were Sikeston shoppers Wednesday afternoon.

Everyone is cordially invited to attend Sunday school at Lander's Ridge school house.

Hershel Newman spent a short time Thursday morning with his cousin, Bud Newman.

The shower of rain received Saturday and Sunday afternoon were greatly appreciated by the farmers of the community.

Aileen Adecock has been ill the past week, but she is improving rapidly.

Mr. and Mrs. W. W. Dalton, Rev. Stafford and son and daughter-in-law of Portageville spent Sunday with Mr. and Mrs. John Adecock and family.

Maudie Johnson, who lives near Sikeston and Ruthie and Jack Crowell spent Sunday with Gladys and John H. Johnson.

Mr. and Mrs. Dallas Wallace were visitors at Miner Switch, Sunday.

Bro. Griffin and daughter of Morehouse spent the day with Mr. and Mrs. Fred Marchbanks, Sunday.

M. Mays of Gray Ridge was a visitor here, Sunday.

Those on the sick list at this time are Charles and Poe Tate.

Miss Ada Tate and Geo. Zolph were visitors of Mr. and Mrs. Ernest Tate, Sunday.

Mrs. Mary Chaney and sister, Mrs. Ella Shoaf of Sikeston stopped for a short visit.

Mr. and Mrs. Clarence Couch and family of Sikeston stopped for a short visit with Mr. and Mrs. Miller.

Mary Ovaline Tate, who has been on the sick list, is not improving so well at this writing.

Community Sunday school—10 o'clock. A new superintendent was elected, Dallas Wallace being the superintendent. Other officers were also elected.

FARMERS ARE URGED TO CUT PRODUCTION

ATTEMPT TO LIFE PRICES MAY FAIL—WALLACE

St. Paul, June 23.—Secretary of Agriculture Wallace warned farmers today that they must restrict production or the government's attempt to lift the price structure of agricultural commodities "will have been built on sand."

"If we want these prices to stay up and to go higher, we must put a firm base under them," Wallace said in his first speech to a farm audience since he became a cabinet member. He spoke at the experiment farm here.

Discussing the farm relief act, Wallace said it was a framework only and would not endure unless the "farmers of the country wish it" through concerted co-operation.

"It is a keynote of this administration that we refuse to kid ourselves about what we have done or hope to do," Wallace said.

He revealed that marketing agreements to help producers of fluid milk were being developed but that the broad problem of dairy surpluses has yet to be solved.

"The dairy and corn-hog situation involve extremely difficult problems," Wallace asserted, "and unfortunately, the corn belt organizations have not brought us a clear-cut plan for utilizing the centralized forces of the bill in the same way as the wheat and cotton people."

Wallace predicted that total American exports of wheat and flour for the exporting season now closing would be only about 35,000,000 bushels, compared with a carry over of 350,100,000 bushels.

"As practical men, we know there is no prospect of any effective foreign demand being restored at any time in the near future," Wallace said.

Discussing the wheat processing tax recently decided on, he said that in no case would the required crop reduction exceed 20 per cent of a farmer's average acreage for the past three years.

"The exact percentage to be required this fall and next spring," he added, "will depend upon the outcome of the international wheat conference in London."

Morning services—11 o'clock. Young People's Meeting—7:00. Fred Marchbanks, leader. Evening worship—8:00 o'clock. Prayer meeting every Thursday night. Everyone invited.

MISSISSIPPI COUNTY TO RETIRE 7379 ACRES OF COTTON

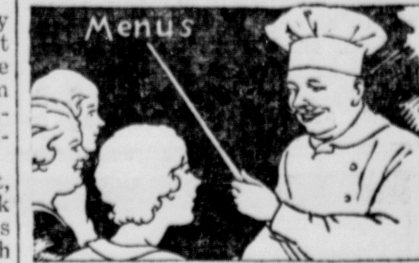

Charleston, June 26.—Ide P. Trotter and W. C. Shotwell of Columbia, representing the Missouri Agricultural Extension Service and the U. S. Department of Agriculture, met with a group of prominent farmers of the County here Saturday afternoon at the Court House, and began the campaign for retirement of 7379 acres of cotton in Mississippi County, which is 30 per cent of the past five year average of cotton acreage.

The following men were appointed to arrange local meetings throughout the county: Bertrand—S. B. Hardwick and J. O. Bebout; East Prairie—Louis Gregory and Elgin Davis; Wolf Island—Lindsay Ringo; Dorena—Allys Rogers; Wyatt—Charles Morton, Clarence Black and Ed Menefee; Bridges—S. M. Shelby; Upper Croeno—Lan McPheeters and Anniston—W. J. Melton.

Kitchen-Cup-lets by Della Taylor

If you want your big party to be a success I know of no better way I confess. Then follow the lead of the hotel cooks. Besides consulting your cooking books.

If you have never had any experience planning a meal for a large crowd, it will sound like a gigantic undertaking to you. However, there are tricks in all trades and this one is no exception. Most people wonder how hotels always manage to have the proper amount on hand and to serve their guests so beautifully. This smoothness of routine is usually due to that King in his own realm, the Chef.

The other day I was at a luncheon at the newly reopened Blackstone Hotel, in Chicago. The Blackstone has always been one of Chicago's famous old landmarks and is known the world over for its cuisine.

I was so pleased when I learned that they had regained Herr Bertsche, their famous German chef, who looks Italian, and speaks French. I had known him when he was at the Blackstone before, and also when he was chef for another famous hotel in London. After luncheon I sent my card back to him and asked if he was too busy to have me stop back and wish him luck.

During the course of our conversation, I asked him if he would plan a large luncheon for me. If you have to plan for a luncheon for your club, I feel quite sure that you will find Herr Bertsche's suggestions most helpful. The following menu is planned for one hundred and fifty people.

M E N U
Melon and Strawberry Supreme Grenadine
Clear Vegetable Soup
Ripe and Green Olives
Chicken Hash au Gratin in Potato Nest
Salad
Vanilla Ice Cream
Dessert—Tangerine Macaroons

For your Fruit Supreme, use: 1 water-melon; 3 honey dew melons; 6 cantaloupes and 5 quart boxes of strawberries. With a small melon scoop, make little round balls of melon. Add these to strawberries. Dilute one quart or less of grenadine syrup with your fruit juice and pour over fruit.

Clear Vegetable Soup

25 pounds beef shanks 2 tablespoons salt
4 bunches carrots 10 onions
10 stalks celery 2 heads cabbage
bay leaves, cloves and whole peppers, 1 oz. of each

Remove meat from beef shanks and crack bones. Put both in large kettle and cover with cold water. Bring to boiling point and then discard all liquid. Hold bones under cold water faucet for a minute. Put all back in kettle and cover with clean water. Make a little bag of cheesecloth and put bay leaves, whole peppers and cloves in it. Add this to meat and let simmer for 3 hours. Dice all vegetables and cook separately in small amount of broth from soup. Add vegetables to soup later. 1 gallon of soup makes about 15 cups. 8 to 10 gallons provides for one hundred and fifty people.

Chicken Hash au Gratin

15 hens (5 to 6 lbs. each) 2 carrots
4 pounds butter 2 onions
flour 10 cups 2 bunches celery

Cover hens with cold water. Bring to a boiling point and then discard all liquid and wash hens again. Cover with clean water, add carrots, onions and celery trimmings. Simmer about two hours or until tender. Strain, cool and then remove meat and cut in small dice. Make sauce with broth from hens, butter and enough flour to thicken. Put meat from chickens back in pot and pour over it this sauce, adding enough cream and seasoning to taste.

For the potato ring (feasted on around either individual portions of chicken or around platter), use:
15 pounds potatoes salt
5 eggs pepper
Steam potatoes and rice them. Add the eggs, salt and pepper. Stir over hot stove until well mixed. Sprinkle with paprika and cheese.

Clab Hancock says things are on the up and up, at among other items which lately have made new highs for the year are, the Old Miser's temper, butter, Gander Creek and Miss Fruzze Allsop's pencilled eyebrows.—Commercial Appeal.

Sikeston Standard, \$2.00 per year

Put Your Liver To Work--Make This Test

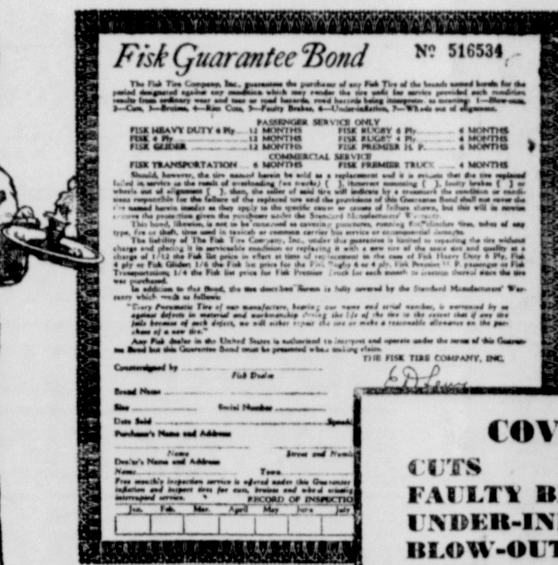

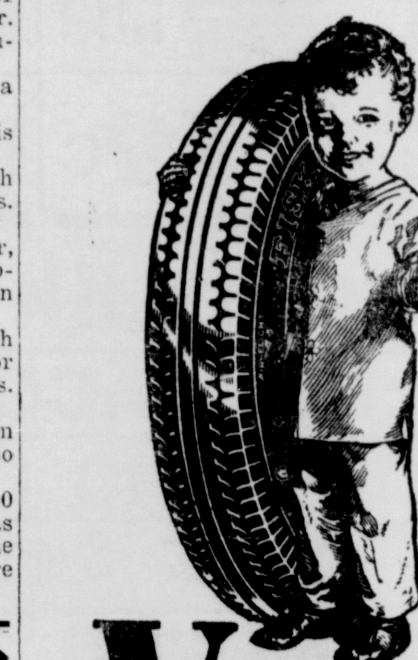

You can't feel well and strong unless your liver furnishes your stomach and bowels plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—constipation, gas, sour stomach, headaches and nervousness follow.

Don't be misled. Calomel, salts, oils, mineral waters, laxative pills, etc., have no effect whatever on the liver. There are only two generally recognized substances which actually cause a sluggish liver to increase its production of bile, Sargon Soft Mass Pills contain both of them.

Unless you have tried Sargon Soft Mass Pills you can have no idea of their effect—you feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly.

Only one for a full 30-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Ga.—(adv.)

32,000 Acres of Cotton

(Continued from Page 1)

such loans. This does not relieve farmers from listing on their offers the amounts they owe any such agencies. A determination will be made later as to the disposition of benefit payments with respect to these amounts. Where private persons or corporations have crop liens on cotton to be taken out of production, the agreement between the lien holder and the producer should be settled by agreement between them.

C. A. COBB, Cotton Expert in Charge. Mr. Cobb, in another message seemed assured that the plan would meet with favorable response.

The message:

"Prospects for successful acreage reduction campaign most promising. Wish to urge that all acreage retired be covered by contracts carefully inspected by a committee man to determine location, number of acres and estimated yield per acre before contracts are approved by county committee and reported to State and National offices. Nothing would be more fatal to the program than unfair yield estimates or unquestionable acreage figures in contracts.

In Other Counties

Retirement of 7379 acres in Mississippi County was discussed at a meeting held in Charleston Saturday. Local committees for meetings throughout the county during a week were formed as follows: Bertrand, S. B. Hardwick and J. O. Bebout; East Prairie, Louis Gregory and Elgin Davis; Wolf Island, Lindsay Ringo; Dorena, Allys Rogers; Wyatt, Charles Morton; Lawrence Black and Ed Menefee; Bridges, S. M. Shelby; Upper Cross, Lan McPheeters and Anniston, W. J. Melton.

A meeting of the township committee for Dunklin County was held at Kennett Monday evening, June 26. Cotton farmers from all over the county attended. There will be a series of the meetings in various localities during this week to determine the number who will agree to reduce their crop.

New Madrid Cotton Men

(Continued from Page 1)

The County Agent will send these contracts to Washington and if accepted by the Secretary of Agriculture, the grower will be notified, and he can then destroy the cotton. The committee will again visit the cotton field, and certify that the cotton has been destroyed, send this certification to the Secretary of Agriculture, and the Secretary will then send payment for the cotton destroyed. At the meeting Tuesday night, the county was divided into fifteen different districts, and the committee named above have agreed to see that every cotton grower in fourteen of these districts will be interviewed. As stated above, committee men for the 15th district will be selected as early a date as is possible.

The two most troublesome questions brought up at the meeting was as to how the check in payment for the cotton was to be limited to 275 pounds per acre. In response to a wired request to Washington for additional information the following telegram was received Wednesday morning:

The Checks. Gordon B. Nance, New Madrid, Mo. When the interest of lien hold-

ers and producers must be protected the following language may be inserted in the contract just below the producers signature and just above the lien holders signature: "Check for cash benefits to be payable jointly to the producers and the undersigned lien holders". Total estimated yield should be in contract. Actual option in pounds of cotton to be based on total estimated production of acreage retired.

(Signed) C. A. COBB, In charge Cotton Section Production Division. Cotton producers who desire additional information on this plan should get in touch with the committee men in their districts.

Assistant Named. N. D. Wrinkle, who has been in County Agent work in Missouri since 1928, has been assigned to New Madrid County to assist County Agent Nance during the Cotton Reduction Campaign. Mr. Wrinkle graduated from the University in 1928, since which date he has been in Extension Work in Stoddard and Webster Counties. It is fortunate that New Madrid County has secured such experienced assistance in this work, stated County Agent Nance.

Personal and Local Items From Canolou

(By Velma McLaurin)

Mr. and Mrs. Herbert Lumsden and little daughter came Wednesday for a two days' visit with the former's mother, Mrs. J. W. Lumsden. Mr. Lumsden has been attending school in Urbana, Ill. He and his family left Friday for Colorado, where they expect to spend the summer with Mrs. Lumsden's parents.

A. JACK MATTHEWS

Matthews Garage

Sikeston, Missouri

To President Roosevelt

You made a promise to the people—and made good. You have a habit of making good—and we admire you for it. Falstaff, too, makes a promise to the people—guaranteeing them beer that is FULLY AGED. You backed your promise to the people with action. Our promise to you and to the people is likewise backed by action.

President Roosevelt—we salute you!

You have perhaps drank the other brands, now try the best—FALSTAFF, the Choicest Product of the Brewers Art.

It is a Missouri-made beer, sold by a Missourian. Celebrate the 4th with a case of Missouri's Best—FALSTAFF. Sold everywhere.

MISS CECIL DAUGHTERY
